Proposal: Constr Vehicle
Lat: N40°-51'-57.9"
Lon: W84°-36'-6"
Height: 25 ft AGL 807 ft AMSL

Subject: APPLICATION FOR TEMPORARY CONSTRUCTION PERMIT
Aeronautical Study No: 2023-DOT-2086-OE (2023-AGL-5875-OE)

To Whom It May Concern,

In response to the application received concerning the proposed temporary construction described above, a study has been conducted under provisions of Ohio State Law Chapter 119, Section 4561.34 of the Revised Code to determine whether the proposed construction would be an obstruction to air navigation. The findings of that study are as follows:

The proposed installation meets the notification criteria. However, we have determined that the proposed height and location is not reasonably expected to affect the safe and efficient use of the navigable airspace of any public use airport/heliport nor affect the safety of persons and property on the ground.

This permit is being approved subject to the following conditions:

[X] Notice is required if the project is abandoned or modified;

[X] Obstruction Marking and/or Lighting per the current FAA Advisory Circular (AC 70/7460-1M) "Obstruction Marking and Lighting" is required.

[X] Compliance with conditions of the FAA determination.

This authorization to initiate temporary construction of the subject proposal expires on 11/15/2024 unless it is extended, revised or terminated by the Ohio State Department of Transportation. This permit does not exempt you from coordinating with local zoning authorities regarding compliance with established zoning ordinances, nor does it exempt you from your requirement to obtain a building/construction permit

If you have any questions, please call (614) 466-6804 or Toll Free (855) 867-1852.

Respectfully,

ODOT Office of Aviation
