STW SHSP Implementation Scope of Services PID 125901

OBJECTIVE

The objective of this contract is to assist ODOT in implementing the state's Strategic Highway Safety Plan.

Major Tasks

The Consultant shall be required to assist ODOT in conducting the following tasks on a mutually agreed upon schedule.

Project Management

- Consultants will host recurring, likely monthly, project management meetings with appropriate ODOT staff.
- Consultant will lead data driven analysis and stakeholder engagement when necessary for action steps tasked for implementation

Plan Implementation

- Implementation of current and updated Strategic Highway Safety Plan (SHSP) through supporting emphasis area teams in the completion of action steps, which include:
 - Research and best practice reviews on topics such as land use and safety, target speed, severe crash prevention, etc.
 - Mapping and analysis assistance to identify and display high priority corridors for addressing speeds, VRU safety, etc.
 - Development of toolkits, guidance, and/or webinars dedicated to various countermeasures and topics (i.e. road diets, gateway treatments, buggy lanes, traffic calming, roundabouts)
 - Development of public-facing education such as resources on new infrastructure treatments
 - Assisting with the establishment of a post-crash care emphasis area and subsequent actions
