EXTERNAL MESSAGE – TREAT LINKS/FILES WITH CARE

Doug,

AEP Distribution single phase running on the west side of Willpie Street as seen in the maps below. The facilities on the east side have to be another company's facilities. I do not see any conflicts with AEP distribution and the project. If you have any questions or concerns please let me know.

Thanks,
Clarke

Clarke,

For the ODOT project AUG-US33-Willipie St Infield Truck parking PID 122890 in Auglaize County, ODOT is constructing a Truck parking area at the interchange of US 33 and Willipie St. Please confirm that your utility has or has not any conflicts with this project. See attached plan set for your review.

Thank you,

Doug

EXTERNAL MESSAGE – TREAT LINKS/FILES WITH CARE

Doug / Ram,

Please see the attached map that shows the proposed project location in pink.

Our records indicate that AEP Transmission does not have any facilities within the project area. The facilities that you mentioned that run along Willipie Street appear to be AEP Distribution facilities. Clark will have to let you know if they are shown properly on the plans.

If you believe I have come to this conclusion in error, please do not hesitate to contact me.

If the plans should change and relocation of transmission facilities is required, please email new plans to TL_PUBLICPROJECTS@AEP.COM

Thanks,
Mike

Ram,

I received your voicemail and just received these plans. I do not believe I have seen these yet. I will take a look at them today and try to get a response to you either yet today or tomorrow.

Please let me know if you need anything else in the meantime.

Thanks,
Mike
