Good Afternoon Mr. Hamilton

I am providing an electronic format copy of our current plans for the Franklin County FRA-US62-4.90 PID119042. This project in Jackson Township proposes improvement for two drainage systems along US-62.

As per the attached cover letter, it is requested that you review the utility information presented and offer any corrections or omissions which you may recognize on the plans by whatever means works best for you. Your help in getting the most complete information regarding your facilities is much appreciated.

Sincerely,

Kevin Jones | Design Engineer - Transportation Department

Good morning.

Spectrum has Aerial facilities currently attached to existing utility poles marked orange, mainly on the east side of Harrisburg Pike. If these poles are to be relocated, please provide plans with new pole locations and footages / Pole Proposal from the power company – Pole Owner. We do also have some underground in the area that does not look like it will be in conflict. I have attached a print with the locations of our facilities including fiber in the area. Please let us know if you need anything further.

THANK YOU

CHRIS

Chris Hamilton
