Ok, I see our PCL 008 and PCL 020 did not get scanned. I will ask the Admin to re-scan on Monday.

The URL for ShareFile is <https://ohiodot.sharefile.com/d-s50e661e242847b2a>.

Sorry this process is taking so long. I notice it says Final ROW plans have been confirmed, although the final ROW plans have not been uploaded by OSM and saved for your review. I will get those to you as soon as they are available. I believe JR has sent submitted Final plans to you?

Thanks I will be in touch on Monday.

John,

I sent letters to all of the tax mail addresses. On parcel 1 Mr. Phil Eichorn responded and inspected the property with me on June 30, 2020 at 10 am.

Thanks

Hello David,

Have you done accompaniment on PCL 1 (or other parcels) yet?

I only ask because Kimber had a conversation with owner of PCL 1 and he had not yet been contacted regarding the acquisition. If you need a good phone number for PCL 1; let Kimber know (just reply all) and she can provide it.

Please let us know if you need anything else to continue your efforts of appraising.

Please let me know if you have any questions, comments, or concerns. Thank you.

Respectfully,

John R. Wooldridge

Thanks David,

I do not know. Parcel 1 may change depending on what we learn about the building. I do not have any other known changes to share. Thanks.

Please let me know if you have any questions, comments, or concerns. Thank you.

Respectfully,

Hello David,

Attached are the updated plans for R/W for review. They may have changes to the takes. We also anticipate parcel 1 having possible additional changes (reduce T) not shown on these plans. Please feel free to make any comments that you think may be helpful. We hope to have final plans for completing the VA in about 2 to 3 weeks. Please let us know if there is any other information that you need to keep working on the task. Thanks!

Please let me know if you have any questions, comments, or concerns. Thank you.

Thanks Jared,

Yes, two separate parcels; Parcel 1 and 4.

Anticipated estimate from cost estimate was around \$65,000; therefore scoped to be LSUM. I think we would all agree that they will each certainly be under \$100,000 (it is possible that they may not even be \$65,000). We just request the approval in case it exceeds the limit. Thanks!

David, can you let Jared know a better expectation of the anticipated FMVE? Thanks.

Please let me know if you have any questions, comments, or concerns. Thank you.

John,

Yes, as long as the agency, appraiser and reviewer all agree the appraisal problem is simplistic and meets the requirements of a VF with the exception of the dollar limit, a waiver can be granted. I will need to know what is the anticipated FMVE. Is this for two separate parcels?

Jared

Hello Jared,

Do you approve using a VF format for a parcel that may be over \$65,000 with no damages to the residue? In the past, Kevin required his approval for exceeding the 65000 threshold, but I cannot find such an exception in the P&P today. The original scope was to do LSUM for these parcels unless under \$65K (see checklists attached). David believes this to be acceptable and the reviewer has no issue with it. District concurs that the issues heard are simplistic. We have heard that the building condition on parcel 1 is "roofless." Thank you Jared for letting us know if utilizing the VF format is OK even if the total exceeds \$65,000.

Please let me know if you have any questions, comments, or concerns. Thank you.

Subject: FW: FAI-Parcel 4

John,

Please see the email request/response below between Harvey and I.

The appraisal problem on parcel 4 appears to be simplistic. I am unsure at this second if the amount will go over \$65K, it will likely be in the neighborhood. There does not appear to be any residual damage to the land so an "after" appraisal would not be necessary as it would just reflect the same unit value as in the "before".

Therefore I am requesting permission to perform a Value Finding on parcel 4 with the understanding that it may exceed \$65K while remaining simplistic. This format appears to be sufficient to answer the appraisal problem.

Please let me know how you would like me to proceed.

Thanks

Subject: FAI-Parcel 4

Harvey,

Similar to parcel 1 I feel like this parcel 4 has no residual damages in the after situation. I am not sure on the amount yet and it could go above \$65K. I believe we have a couple options here. I don't think doing an after is necessary as the value is going to be the same as before, same comps, same unit value. I know that with a simplistic acquisition the district can extend the \$65,000 amount.

I believe a VF on this parcel would be applicable with the understanding it may get above \$65K but is still simplistic.

If that is not acceptable then I think a limited summary with just the "before" would be the other option.

What are your thoughts?

Thanks
