This needs addressed...unless this is in the new ROW...but why not put it on the EICHHORN PROPERTY? Why are they doing this to this business?

I am so sorry no one got with you about anything in my absence. We are exploring several possibilities, but FHWA has strict guidelines, but I am working on it. Several options I thought of initially, have requirements of being in business at the location for three years, one for physically and the other necessary tax documentation, but I do not give up easily. We will be out soon and add some sales to your day by enjoying lunch.

Side note, I have not been silent about the SR 37 since we spoke. I started with my chain of command in the field and have worked my way up, but have to give hats off to the constituency of the area, they were determined. Saw a video from one of our drivers cameras...where two vehicles met him past Leitnaker (I think)...and would not turn around, just pulled over so our dump truck could go by, and then proceeded N on SR 37. OSP was helpful as well in not camping out and ticketing everyone...We the People still have power, if we use it!

Hang in there.

Kimber,

Yes that is great.

Is there any financial help for this last month?

We saw An uptick in sales this weekend. But still no where near where we were.
Sorry about your back. Hope you feel better.

Thanks

Todd

I have been out of the office for about a month, sciatic/back issue, and did not know someone had not contacted you with an update.

I am back on an intermittent basis, and just got an update, construction has abandoned the shut down of SR 37 for now and is allowing traffic both ways, N and S. We had been exploring how to assist you but had not stopped hammering construction and planning on the option to re-open SR 37 for both ways traffic to assist. My continued effort will be to allow the SR 37 traffic both ways throughout the project, but imagine they will complete the SR 256 work and then work on the SR 37 construction, so might not be completely perfect solution, but hopefully you will see a return of traffic and patrons.

Best regards and hopes for success.
