

This presentation will provide an overview of the subject project that will be placed on the upcoming programmatic selection for consultant design services.

BEL-7-19.75 PID 106237

- Proj. Description: Design the replacement for major bridge BEL-7-1975 SFN 0700541.
- Originally scoped as a design build project to replace the major bridge with smaller bridges.
- Local opposition to that effect was received during the Public Involvement portion of preliminary development.

2 | BEL-7-19.75 PID 106237

The project will replace bridge BEL-7-19.75 (SFN 0700541) carrying State Route 7 over various features within the Village of Bridgeport.

BEL-7-19.75 PID 106237

• The major bridge will now be replaced with a new major bridge.

3 | BEL-7-19.75 PID 106237

The project will replace bridge BEL-7-19.75 (SFN 0700541) carrying State Route 7 over various features within the Village of Bridgeport.

AVAILABLE PROJECT INFORMATION

- Some project information is available at the following FTP site:
 - ftp.dot.state.oh.us /pub/Districts/D11/106237
 - The PIP will be released through SAFE on the programmatic scheduled date
 - D11 does not release the PIP early
 - All information on the FTP site is subject to change, please review the information in SAFE to create your LOI

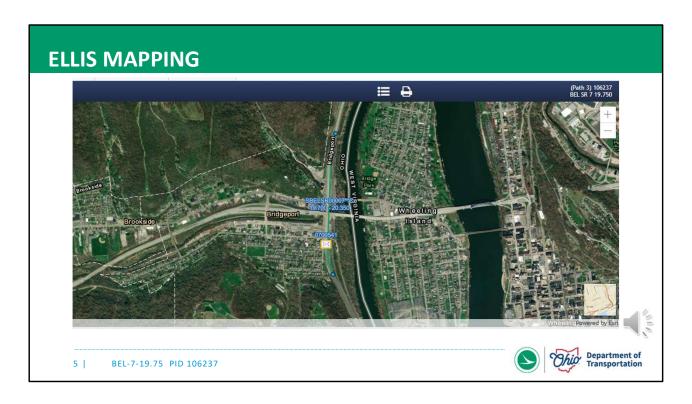

4 | BEL-7-19.75 PID 106237

Additional project information is available on the District 11 ftp site, at the link shown on your screen. The Project Initiation Package document, along with a more complete and detailed scope of work will be released through The ODOT Scope and Fee System (or SAFE) at the request for LOIs. All information on the FTP site is subject to change. Ensure you review the ftp site and the information in SAFE before completing your LOI for this project.

Here is an image showing the anticipated project limits from ODOT's Ellis application for PID 122470. The project will follow the existing horizontal and vertical alignments as much as practical.

PROJECT SCOPE

- The major items of work include:
 - Replace bridge BEL-7-1975 (SFN 0700541) with structure of similar type and length.
 - Soil Borings may be required.
 - Foundation Design will be required.
 - Utility relocation anticipated along with in plans work for water and sewer design.
 - Maintenance of Traffic via cross over design, but MOTAA is required.
 - Increase Vertical Clearance under IR 70
 - Increase Vertical Clearance under SR 7
 - A new Structure Type Study will be required that provides:
 - Analyze pier stems to see if they can be reused
 - » Must be able to meet all design loadings/criteria
 - Multiple bridge superstructure (and potentially substructure types)
 - Determine location and condition of drainage structures under the existing bridge
 - Design exception will be required for graded shoulder width, to be submitted with Pre-Stage 1 review.

BEL-7-19.75 PID 106237 6 |

The major scope items are listed here. An updated and more complete list will be released in SAFE at the beginning of the LOI process.

CONSULTANT PREQUALIFICATIONS

- Level 1 bridge inspection
- Level 2 bridge design
- Non-complex roadway design
- Various Environmental
- Various Geotechnical
- Limited R/W

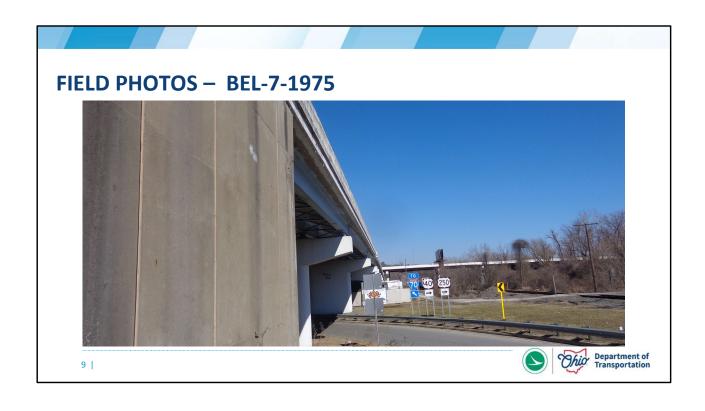

7 | BEL-7-19.75 PID 106237

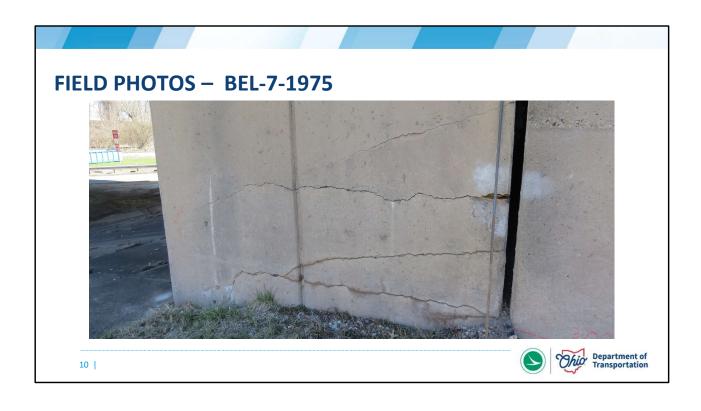

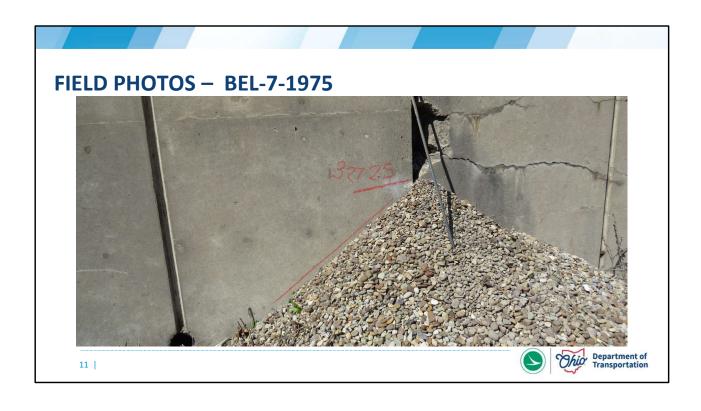

The consultant prequalifications required for this project are shown here.

The following slides will show you some of the scoping field visit photos, to illustrate how the District arrived at the current scope of work. More photos are available on the ftp site shown earlier.

THANK YOU

- Additional photos are available on the FTP Site
- Thank you for watching this video presentation for Proj. BEL-7-19.75 PID 106237.
- District 11 appreciates your interest in partnering with us for a successful project

16 | BEL-7-19.75 PID 106237

Thank you for watching this video. Visit the ftp site for more photos and information. Please remember that changes to this information and the detailed scope of work are possible. Review the information in SAFE prior to submitting your LOI.
