

MAY 2026 PROGRAMMATIC

D11 Proj.: CAR-212-3.91 PID 122333

Department of
Transportation

This presentation will provide an overview of the subject project that will be placed on the upcoming programmatic selection for consultant design services.

CAR-212-3.91 PID 122333

- Proj. Description: Replace bridge carrying State Route 212 over Holmes Run.

2 |

Proj. CAR-212-3.91 PID 122333

The project will replace bridge CAR-212-3.91 (SFN 1001442) carrying state route 212 over Holmes Run.

AVAILABLE PROJECT INFORMATION

- Some project information is available at the following FTP site:
 - <https://ftp.dot.state.oh.us/pub/Districts/D11/122333>
 - The PIP will be released through SAFE on the programmatic scheduled date
 - D11 does not release the PIP early
 - All information on the FTP site is subject to change, please review the information in SAFE to create your LOI

3 | Proj. CAR-212-3.91 PID 122333

Additional project information is available on the District 11 ftp site, at the link shown on your screen. The Project Initiation Package document, along with a more complete and detailed scope of work will be released through The ODOT Scope and Fee System (or SAFE) at the request for LOIs. All information on the FTP site is subject to change. Ensure you review the ftp site and the information in SAFE before completing your LOI for this project.

TIMS MAPPING

The screenshot shows a map interface for the Transportation Information Mapping System (TIMS). The map displays a road network with a cyan-colored line representing a bridge preservation project. The project starts at a point labeled '100142' and follows the existing alignment of 'Lumberland Rd SW' and 'Dixie Rd SW' for a distance of approximately 300 feet. The project then turns and follows the alignment of 'Gandy Rd SW' for another 300 feet. The map includes a legend, a search bar, and a table at the bottom showing project details.

GIS_ID	PID_NBR	DISTRICT_NBR	LOCATE_SHORT_NME	COUNTY_NME	PROJECT_NME	CONTRACT_TYPE	PRIMARY_FUND
88529	122333	11	CAR	Carroll	CAR SR 212 3.8	Standard Build	District Preserv

Department of Transportation

Here is an image showing the anticipated project limits from ODOT's TIMS application. The project will follow the existing horizontal and vertical alignments as much as practical.

PROJECT SCOPE

- The major items of work include:
 - Replace bridge.
 - Newer bridge will be wider. Width to be determined at consultant scope meeting.
 - The Village of Leesville has an active transportation plan that may include SR 212 through this section. The final alignment of the Shared Use Path through this area is not yet determined but should be known at the consultant scope meeting after the selection process is complete.
 - Better align bridge with stream.
 - Protect bridge from scour
 - Soil Borings required.

The major scope items are listed here. An updated and more complete list will be released in SAFE at the beginning of the LOI process.

CONSULTANT PREQUALIFICATIONS

- Level 1 bridge inspection
- Level 2 bridge design
- Non-complex roadway design
- Various Environmental
- Various Geotechnical
- Limited R/W

6 | Proj. CAR-212-3.91 PID 122333

The consultant prequalifications required for this project are shown here.

FIELD PHOTOS

7 |

The following slides will show you some of the scoping field visit photos, to illustrate how the District arrived at the current scope of work. More photos are available on the ftp site shown earlier.
