

MAY 2026 PROGRAMMATIC

D11 Proj.: TUS-800-0.38 PID 97498

Ohio Department of
Transportation

This presentation will provide an overview of the subject project that will be placed on the upcoming programmatic selection for consultant design services.

TUS-800-0.38 PID 97498

- Proj. Description: Replace bridge carrying State Route 800 over Weavers Creek.

2 | Proj. TUS-800-0.38 PID 97498

Department of
Transportation

The project will replace bridge TUS-800-0.38 (SFN 7906374) carrying state route 800 over Weavers Creek.

TWO PROJECTS – ONE DESIGN CONTRACT

- One consultant contract will include the design of two separate construction projects.
 - TUS-800-0.38 PID 97498 – Over Weavers Run
 - HOL-83-13.56 PID 120933 – Over Martins Creek
- Develop 2 separate projects.
- Both projects are to replace the superstructure on three-span continuous slab bridges.

3 | TUS-800-0.38 and HOL-83-13.56

Department of
Transportation

Please note, projects TUS-800-0.38 PID 97498 and HOL-83-13.56 PID 120933 will each be designed under one consultant contract. The selected consultant will be required to complete two entirely separate projects, the plans environmental documents and other important project documents will be separate for each location.

AVAILABLE PROJECT INFORMATION

- Some project information is available at the following FTP site:
 - <https://ftp.dot.state.oh.us/pub/Districts/D11/97498/>
 - The PIP will be released through SAFE on the programmatic scheduled date
 - D11 does not release the PIP early
 - All information on the FTP site is subject to change, please review the information in SAFE to create your LOI

Additional project information is available on the District 11 ftp site, at the link shown on your screen. The Project Initiation Package document, along with a more complete and detailed scope of work will be released through The ODOT Scope and Fee System (or SAFE) at the request for LOIs. All information on the FTP site is subject to change. Ensure you review the ftp site and the information in SAFE before completing your LOI for this project.

TIMS MAPPING

The screenshot displays the TIMS (Transportation Information Mapping System) interface. At the top, there is a green header with the TIMS logo and navigation options. The main area features a map showing a project alignment (a green line) crossing a bridge (a blue line) over a waterway. The bridge is labeled "97498 Bridge Preservation". A scale bar and a search bar are also visible on the map. Below the map is a data table with the following columns and one row of data:

GIS_ID	PID_NBR	DISTRICT_NBR	LOCALE_SHORT_NME	COUNTY_NME	PROJECT_NME	CONTRACT_TYPE	PRIMARY_FUND_CA
42716	97498	11	TUS	Tuscarawas	TUS SR 800 0.38	Standard Build	District Preservation

At the bottom left, there is a breadcrumb trail: "5 | Proj. TUS-800-0.38 PID 97498". At the bottom right, there are logos for the Ohio Department of Transportation and a speaker icon.

Here is an image showing the anticipated project limits from ODOT's TIMS application. The project will follow the existing horizontal and vertical alignments as much as practical.

PROJECT SCOPE

- The major items of work include:
 - Replace superstructure on three-span continuous concrete slab bridge.
 - Replace abutment breastwalls.
 - Encase piling
 - Design exception for graded shoulder width anticipated.
 - Protect bridge from scour
 - Soil Borings are not required. Historic borings will be used to determine the scour parameters.

The major scope items are listed here. An updated and more complete list will be released in SAFE at the beginning of the LOI process.

CONSULTANT PREQUALIFICATIONS

- Level 1 bridge inspection
- Level 2 bridge design
- Non-complex roadway design
- Various Environmental

The consultant prequalifications required for this project are shown here.

FIELD PHOTOS
