Subject: RE: Geotech Exploration RFP (PIDs 118151, 118150, 118147, 118153)

Adi,

I've reviewed the proposals and have a couple comments/questions:

- I'm requesting a report for each project to simply include the logs and testing data. No site information, geologic data, etc. is needed. Based on previous similar work, I would anticipate 6-8 hours on a report for projects with a single boring, and slightly more for additional borings.
- For the DCP on BEL-250, are you planning on using a manual DCP (Wildcat or similar)? I don't think the proposal specifies but I wanted to ensure you'll be able to access the slope below the existing retaining wall.

Thanks,

Christopher (Cody) Notz, P.E.

Subject: RE: Geotech Exploration RFP (PIDs 118151, 118150, 118147, 118153)

Hello, Cody.

Attached are the proposals for your consideration, please let us know if you have any questions or changes to it.

Thank You,
Adi

No worries and thanks for the update.

Regarding JEF-7-31.03 (111600), the SUL provider has the work scheduled for late next week, but they still need approval from central office for the additional work. I'll keep you posted.

Regards,

Christopher (Cody) Notz, P.E.

Hello Cody,

As discussed earlier, we will get you the cost proposals for this task order by mid next week. Sorry for the delay.

Thanks,
Adi

Mr. Rayudu,

We are requesting exploration services for the subject project through our geotech task order.

If you have any questions or need additional information, please let me know.

Regards,

Christopher (Cody) Notz, P.E.
