Thanks Nick.

Rich:

I'm hung up today with medical issue (my lower back), so not sure I can sign and return the agreement to you today. Will do so ASAP.

Jeff & Richard,

I have reviewed the repair plans and don't have any concerns at this time for the parapet repair work from the Engineering Department standpoint. Outside of flagging being set up while the contractor is demoing the parapets for the possibility of material falling on the tracks, which should be covered in the agreement.

Thanks,

Nick Strub | Project Engineer
Wheeling & Lake Erie Railway

>> Thanks for the information. Under the terms of CCR's, subsidiary of Omnitrax, agreement with W&LE, CCR is not authorized to approve engineering, right of way/right of entry, and other related matters for W&LE or sign agreements that cover such items. Accordingly, any agreements involving W&LE's right of way should be addressed to me and signed by W&LE, not CCR. If you can please revise the agreement to be sent to my attention and resend this, it is greatly appreciated. We will be sure to keep CCR in the loop on approvals and invite them to attend any pre-construction or other like meetings involving this project. I know this was an ongoing issue with the previous owner of CCR, and that is unfortunate.
