

Temporary Construction, Access and Dewatering Activities

Permit Determination Checklist

The purpose of this form is to aid the Office of Environmental Services - Waterway Permits Unit (OES-WPU) in the permit determination process. This form shall be completed by the project designer and reflect the anticipated needs of the temporary fill. If the type and amount of temporary fill is unknown, assume a worst case scenario of what could be needed. A completed copy of this form and a temporary construction access plan shall be forwarded to the District Environmental Coordinator (DEC) to be included in the Permit Determination Request submitted to OES-WPU.

Co-Rte-Sec: _____ PID: _____

Description: _____

During the construction of this project, the following activities in the waters of the United States are anticipated: (check all that apply)

- ☐ Temporary structure for maintaining traffic
- ☐ Cofferdams
- ☐ Temporary access fill (e.g. causeways and work pads)
- ☐ Demolition and debris removal
- ☐ Dams, sumps and pumping

ODOT requires that temporary activity to accommodate a minimum flow equal to twice the highest mean monthly flow without creating a rise in backwater above the OHWM. **The minimum flow to be maintained throughout construction for this location is _____ cfs.** The means that will most likely be implemented by the Contractor to maintain this flow will be:

- ☐ Conduit(s)
- ☐ Open channel(s)\Temporary Bridge

Does the project meet flow requirements outlined in the Location & Design Manual ([L&D Vol.2 Section 1012](#))?
_____ YES _____ NO

Different 404 permit types have different limitations and requirements. Please read the limitations and provide the required measurement as is applies for this project.

- ☐ The maximum length of temporary impact, as measured upstream to downstream along one bank, cannot exceed 300-ft. **Proposed temporary impact length for this project is _____ ft.**
- ☐ The duration of the impact to waters in the United States cannot exceed 2 Years. **Proposed temporary impact duration is _____ years.**
- ☐ The proposed temporary fill is within the flowage easement of a flood control facility*. _____ YES
_____ NO

*Only applies to federal flood control facilities. Flowage easements associated with these facilities can occur several miles away from the facility. If uncertain that the project is in a flowage easement area, please consult your district's real estate office for assistance. Contact OES with further questions.

cc. District Environmental Coordinator (DEC)
