OFFICE OF AVIATION

2019/2020

Airport, Heliport and Seaplane Landing Area Directory

Register Your Aircraft ONLINE!

<http://avrms.dot.state.oh.us>
or Search "AVRMS"

In an effort to modernize and streamline the Ohio aircraft registration process, the Office of Aviation recently deployed an online registration program in addition to the traditional paper-and-postage system. The **Aviation Registration Management System**, or **AVRMS** as it's commonly called, is now fully operational and available for aircraft owners to take advantage of.

Simply go to <https://avrms.dot.state.oh.us> or search "AVRMS" to securely process your payment and register your aircraft online. More and more aircraft owners are taking advantage of the online process as they become aware of it.

For questions or assistance with AVRMS, contact:

Ohio Department of Transportation
Office of Aviation
(614) 387-2354

Email ODOT.Aircraft.Registration@dot.state.oh.us

OHIO DEPARTMENT OF TRANSPORTATION

OFFICE OF AVIATION

www.dot.state.oh.us/aviation

Welcome to the 2019-2020 Ohio Airport Directory.

The Ohio Airport Directory has been prepared by the Ohio Department of Transportation to help promote safe flying, and to provide pilots and aviation organizations with information about Ohio Airports.

The inclusion of facilities in this directory does not imply that these airports meet any particular standards.

Due to constantly changing airport conditions and services, the Ohio Department of Transportation cannot guarantee the accuracy of the information contained in this directory, nor can it take any responsibility for any action taken by a pilot on the basis of the information.

Pilots are required to refer to current U.S. Government aeronautical information and NOTAMS, and contact the FAA Flight Service Station or the airport operators to determine current airport status and services available prior to each flight (FAR 91.103).

I hope you enjoy flying Ohio's friendly skies.

James Bryant, Administrator
Ohio Office of Aviation

NATIONAL MUSEUM OF THE UNITED STATES AIR FORCE™

World's largest military aviation museum

Home of the B-17F
Memphis Belle®

Sit in a jet cockpit

Extensive collection of
presidential aircraft

FREE ADMISSION - FREE PARKING

- Over 19 acres of indoor exhibit space
- Board the Space Shuttle Exhibit
- Walk through presidential and cargo aircraft
- Largest digital movie screen in Southwest Ohio
- Interactive flight simulators
- Virtual reality rides
- Valkyrie and Refueling Cafes
- Extensive museum store

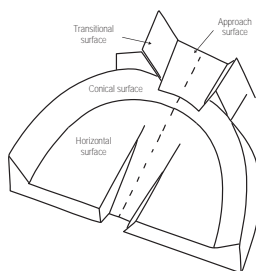

Open 9 a.m. - 5 p.m. daily

Dayton, Ohio | www.nationalmuseum.af.mil | 937-255-3286

Closed Thanksgiving, Christmas and New Year's Day

AIRSPACE PROTECTION AWARENESS

Did you know there are federal and state notification and permitting requirements for any proposed construction near public use airports and heliports in State of Ohio?

What airport authorities, local government officials, zoning and building departments, contractors and everyone involved in the planning and construction process for development in the vicinity of Ohio's airports and heliports should consider.

Complete guidance on the notification and permitting process required by the Federal Aviation Administration (FAA) and ODOT Aviation is available...

Contact the Ohio Department of Transportation, Office of Aviation

2829 West Dublin-Granville Road | Columbus, Ohio 43235-2786

Ohio Airport Protection Hotline: (614) 466-6804

Ohio Airport Protection Toll Free: (855) 867-1852

Email: Ohio.Airport.Protection@dot.ohio.gov

Web: transportation.ohio.gov/aviation & click on *Ohio Airport Protection Act*

DEVELOPMENT MAY BE A PROBLEM IF:

The proposed construction, alteration or associated construction equipment exceeds (or in the case of trees and other vegetation may eventually exceed) any of the following limits:

- The project is 200' or more above ground level at any location within the State of Ohio; OR
- The closer the project is to an airport or heliport, the shorter the structure must be.
 - The proposed project is between 0' & 200' above ground level and;
 - Within 20,000 feet of an Airport with a runway length > 3,200'; or
 - Within 10,000 feet of an Airport with a runway length < 3,200'; or
 - Within 5,000 feet of a Heliport

...then you need to file a notification and get permission to build, alter or plant.

FILE BEFORE YOU BUILD

WHO: The owner of the land, the development or the project that wants to construct, build, alter or plant any structure or object of natural growth near an airport or heliport (overpasses, light poles, antenna or cell towers, wind turbines, buildings, bill boards, trees...)

WHAT: 1. File FAA Form 7460-1 "Notification of Proposed Construction or Alteration" with the FAA and
2. Obtain a permit from the ODOT Office of Aviation.

WHEN: 90 days prior to the proposed start of construction (45 days for the FAA review and an additional 45 days for ODOT's review)

WHERE: File electronically at <http://oeaaa.faa.gov>

WHY: To protect the navigable airspace from obstacles, obstructions and hazards.
