

Village of Northfield

Traffic Signals on Northfield Road (SR-8) - Inventory

August, 2026

	Intersection / Location	Notes
1.	Meadow Lane	Currently this is an Advanced Loop Detection System with 9 loop detectors. Instead of replacing the loop detectors, upon the Village's request, can ODOT upgrade the vehicle detection system to a 'Radar' Detection System using a Wavetronix product (ODOT pre-approved product)? This would help with future pavement damages/maintenance and reliability of the signalized intersection. No more cutting into the pavement and disrupting traffic flow!
2.	Ledge Road	Video Detection System for traffic signals
3.	at NV Fire Station, 10271 Northfield Road	Video Detection System for traffic signals
4.	Maple Avenue & Summit Plaza Main Entrance, 10333 Northfield Road	Video Detection System for traffic signals
5.	Houghton Road	Video Detection System for traffic signals
6.	Filly Lane	Video Detection System for traffic signals
7.	Vincent Avenue & Northfield Park Racino Main Entrance, 10777 Northfield Road	Video Detection System for traffic signals
8.	Sagamore Road & Northfield Park Racino, 10777 Northfield Road	Video Detection System for traffic signals
