SQG	Small Quantity Generator
SR	State Route
USDA	United States Department of Agriculture
USGS	United States Geological Society
UST	Underground storage tank

EXECUTIVE SUMMARY

URS Corporation was retained by the Ohio Department of Transportation (ODOT) to conduct an Environmental Site Assessment Screening and the associated Phase I Environmental Site Assessments (ESAs) for the Cleveland Innerbelt Study. The Cleveland Innerbelt Study begins at the Interstate 71 (I-71) and Fulton Road interchange and extends north through the merge with Interstate 90 (I-90) across the Central Viaduct Bridge, which spans the Cuyahoga River, through the Central Interchange and terminates at the I-90 curve just east of the I-90 merge with State Route (SR) 2 (the Project Area). In addition, the Cleveland Innerbelt Study includes the portion of Interstate 77 (I-77) that begins at the Central Interchange and extends south to the I-77 and East 30th Street interchange. The Project Area, which is wholly located in the City of Cleveland, Cuyahoga County, spans approximately seven miles.

The Cleveland Innerbelt Study has been undertaken by ODOT for the purpose of developing a strategy for the renewal of the transportation infrastructure in the I-71/I-90 corridor through downtown Cleveland. The pavements and structures comprising the existing Innerbelt through Cleveland are approaching the end of their service life. Further, the capacity of the existing Innerbelt is restricted by a series of interchanges and subsequent bottlenecks, which do not conform to current highway design standards, thereby contributing to traffic congestion, high accident rates, and traffic diversions through central city neighborhoods, which degrades the quality of life for Cleveland residents.

The Environmental Site Assessment Screening and associated Phase I ESAs were conduced in accordance with the ODOT guidance. The Project Area encompasses commercial, industrial, institutional, municipal, and residential properties. As a result of the Screening, the properties listed below were recommended for Phase I ESAs.

Phase I ESA Summary Table

Site Number	Site	Address	Rationale
2	Former Bauer Auto	3553 West 25th Street	LUST
	CENTRAL VIADUCT - NORTH		
11	Stripmatic	1501 Abbey Road	LUST
13	Former Glove Cleaning Service/Scranton Averell	2132-2150 West 15th Street	Historic Operations
14	Bojacks Meats	1425 University/2000 West 14th Street	Property Take
15	Leon Rudnick	1402-1408 Abbey Road	Property Take
16	Wendell & Carroll Collins/1501 Companies	West 15th Street	Property Take
17	Terminal Oil	308 Central Viaduct	UST
18	Cleveland Fire Station	310 Carnegie	Property Take
19	Gillota Fuel Products	206-300 Central Viaduct	Property Take
20	Earl Lee	2394 Canal Road	Property Take
21	White Properties	1996 West 3rd Street	Property Take
22	Nova Properties	West 4th Street	Property Take
23	NS Railroad Building	840 Minkon Lane	Property Take
24	James Vincent	2515 Canal Road	Property Take

Site Number	Site	Address	Rationale
		CENTRAL INTERCHANGE	
27	Meridian Properties/Independent Towel	1802 Central Avenue	RCRA SQG, LUST
57	Charles Martin	3501 Croton	Property Take
58	JF Sanson	3561 Burwell	Property Take
		TRENCH	
29	BP Gas Station	2701 Chester	UST
33	State Industrial Products/Information Systems Building	3100 Hamilton	RCRA SQG, LUST, OH Spills, PCBs
34	Former Teledyne Metal Finishing	1725 East 27th Street	RCRA TSD
41	1400 East 30th Partners	1400 East 30th Street	Property Take
42	CB Realty	2975 Superior	Property Take
43	KNC Building	2635 Payne	Property Take
44	EJ Investments	2630 Payne	Property Take
45	Harold Moss, Trustee	1748 East 27th Street	Property Take
46	Tri Building	2728 Euclid	Property Take
47	GKC Limited	2729 Prospect	Property Take
48	Parkwood Corporation	2829 Euclid	Property Take
49	Julius Sorma	3004 St. Clair	Property Take
		INNERBELT CURVE	
50	Cleveland Mounted Police	1150 East 38th Street	Property Take
51	Temp Craft Plastics	3960 South Marginal	Manufacturing
52	Architectural Real Estate	3000 Lakeside	Property Take
53	Cleveland Fire Academy	3101 Lakeside	Property Take

As a result of the Phase I ESAs, the properties listed below were recommended for Phase II ESAs.

Phase II ESA Summary Table

Site Number	Site	Address	Rationale
2	Former Bauer Auto	3553 West 25th Street	LUST Site.
13	Former Glove Cleaning Service/Scranton Averell	2132-2150 West 15th Street	LUST Site.
14	Bojacks Meats	2000 W. 14th /1425 University	UST Site

Site Number	Site	Address	Rationale
16	Wendell & Carroll Collins/1501 Companies	West 15th Street	Property Take
17	Terminal Oil	308 Central Viaduct	LUST Site.
18	Cleveland Fire Station	310 Carnegie	LUST Site.
19	Gillota Fuel Products	206-300 Central Viaduct	LUST and UST Site.
21	White Properties	1996 West 3rd Street	Historic UST Site.
22	Nova Properties	West 4th Street	Historic UST and OHSPILLS Site.
23	NS Railroad Building	840 Minkon Lane	Active UST Site.
24	James Vincent	2515 Canal Road	Historic Operations
27	Meridian Properties/ Independent Towel	1802 Central Avenue	Historic UST and LUST Site.
29	BP Gas Station	2701 Chester Avenue	Active UST Site.
33	State Industrial Products	3100 Hamilton Avenue	OHSPILLS, LUST and UST Site.
34	Former Teledyne Metal Finishing	1725 East 27th Street	Historic UST and AST Site.
42	CB Realty	2975 Superior Avenue	Historic UST Site.
43	KNC Building	2635 Payne Avenue	Historic UST Site.
45	Harold Moss, Trustee	1748 East 27th Street	Historic UST and Dump Site.
50	Cleveland Mounted Police	1150 East 38th Street	Historic UST Site.
51	Temp Craft Plastics	3960 South Marginal Road	Historic UST Site.
53	Cleveland Fire Academy	3101 Lakeside Avenue	Historic UST and AST Site.

1.0 INTRODUCTION

The Environmental Site Assessment Screening and associated Phase I ESAs were conducted in accordance with the ODOT guidance entitled *Environmental Site Assessment Guidelines*, September 1, 1999. The intent of the Environmental Site Assessment Screening process is to identify all properties within a Project Area and provide sufficient investigation to develop a list of suspect properties, which require a Phase I ESA.

The Innerbelt was constructed in the 1950's and 1960's, thus the bridges and pavements are in need of major reconstruction or rehabilitation. In addition, as the volume of highway traffic has increased in the past fifty-five years, the current design can not facilitate reasonable traffic flow patterns. Pavement and bridge deck replacement/rehabilitation is planned for the Project Area.

The Project Area is very large and encompasses a high-density land use portion of the City of Cleveland including commercial, industrial, institutional, municipal, and residential. For clarity purposes and ease of discussion, the Project Area has been divided into seven Study Areas. The Study Areas are described below and are depicted on **Figure 1** in **Appendix A.**

Study Area 1 -- I-71 - Fulton Road to the I-71/I-90 Interchange: This includes the collector-distributor (C-D) roadways on the north and south sides of I-71. The work proposed for this section includes pavement replacement/rehabilitation of mainline I-71 and relocating the existing C-D roadways between Fulton Road and West 25th Street to the same grade as and adjacent to the mainline I-71. The proposed action would result in a lowered elevation of the C-D roadways and a shift in their alignments towards the existing I-71 centerline. Additional proposed work includes: 1) pavement and bridge deck replacement/rehabilitation of mainlines I-71 and I-90; 2.) the addition of one through travel lane to the outside of northbound I-71 between the Jennings Freeway merge and I-71/I-90 interchange; and, 3.) the addition of one travel lane in each direction to the outside of I-90 between the I-71/I-90 interchange. All proposed work along this section of the Innerbelt would be completed within the existing right-of-way. No land is proposed for acquisition for permanent new right-of-way for this improvement. This study area is depicted on **Figure 1-A.**

Study Area 2 The Central Viaduct: The Central Viaduct Bridge carries traffic on I-90 across the Cuyahoga River Valley. This section of the Innerbelt extends from the I-71/I-90 Interchange north to east of Broadway Avenue on the east side of the valley. The work proposed for this section of roadway includes the installation of a southbound bridge to be sited alongside the existing bridge deck. In addition, replacement/rehabilitation of the existing bridge deck is planned. Extensive property takes and improvements are associated with this alternative. This study area is depicted on **Figure 1-B.**

Study Area 3 The Central Interchange: The Central Interchange is roughly located in a triangular-shaped area of land bounded on the southwest by Broadway/Orange Avenue, on the east by East 30th Street, and on the north by Carnegie Avenue. Three distinct transportation functions occur within the Central Interchange: 1) Interstate to Interstate movement (System Interchange), 2) Interstate to/from local roadway movement (Service Interchange), and 3) Local to local roadway movement. The Central Interchange provides full directional access between I-90 and I-77 and provides the main access to downtown Cleveland via East 9th Street, Ontario Street, Broadway, East 14th Street, East 18th Street, and East 22nd Street in the Central Interchange. CBD traffic can access I-77 southbound via East 14th Street, East 9th Street and Ontario Street via Broadway at the Central Interchange.

Major reconstruction is proposed for the Central Interchange. Improvements would include the separation of System and Service movements by redirecting all access to downtown Cleveland on I-

77 to Orange and Woodland Boulevards. Interstate-to-Interstate access will be consolidated by redirecting the traffic movement from I-77 northbound to I-90 westbound and the traffic movement from I-90 eastbound to I-77 southbound to the I-490/I-77 interchange. Also, access to downtown Cleveland from I-90 would be consolidated to exit ramps located at Ontario Street, East 9th Street, and East 18th Street. All loop exit ramps would be reconstructed to meet the 45 mph design speed criterion.

I-77 ends at the Central Interchange and this section of the Innerbelt provides access to downtown traffic at several exit points. The work proposed would include eliminating the existing exit/entrance ramps to downtown and replace them with a continuous flow interchange at I-77/East 30th Street. Access to downtown would be through a boulevard system via Orange/Woodland Boulevards. Proposed improvements for this section of the Innerbelt are extensive and include several property takes. This study area is depicted on **Figure 1-C**.

Study Area 4 The Innerbelt Trench: The Innerbelt Trench is the section of I-90 that runs north from the Central Interchange to the I-90/SR 2 merge. This section of the Innerbelt is referred to as the trench section because it is located at a lower grade than the surrounding streets and intersecting roadways are connected by overpass bridges. There is access to/from the northern Innerbelt at six locations in the trench section. Proposed improvements for this section of the Innerbelt include eliminating all existing entrance/exit ramps to the Innerbelt and replacing them with ramp connections at Chester Avenue and Superior Avenue. A frontage road system, which will parallel the existing Innerbelt, would be constructed to provide access to intersecting roadways and downtown Cleveland. The improvements will require multiple property takes along the eastern span. This study area is depicted on **Figure 1-D**.

Study Area 5 The Innerbelt Curve: This section of the Innerbelt is the I-90/SR 2 interchange, which is referred to locally as the Innerbelt Curve, where northbound I-90 turns sharply to the east. There are numerous design exceptions at this interchange. The ramp that carries traffic from SR 2 eastbound to I-90 westbound has a very tight curve with small radius resulting in a ramp speed of 20 mph. This ramp is a directional ramp with high speeds at the entrance and high speeds at the exit. The radius is too small for this type of ramp and should be a minimum of 674 feet, as opposed to the existing 478 feet. The mainline of I-90 eastbound at the Innerbelt Curve also has a very tight curve radius of 478 feet; the curve should have a minimum radius of 1,042 feet. The curve has a posted advisory speed limit of 35 mph while the minimum design speed for an Interstate highway is 55 mph. Proposed improvements to this interchange includes flattening the mainline I-90 through the Innerbelt Curve, adding an additional lane to I-90 westbound through the interchange, and flattening out other curved ramps through the interchange. A permanent new right-of-way, including a property take, is proposed for acquisition to improve this section of the Innerbelt. This study area is depicted on **Figure 1-E**.

Environmental Site Screening Checklists were completed for the non-residential properties located within the Project Area. These Checklists are included in **Appendix B**. The Environmental Site Assessment Screening included a review of historic maps and aerial photographs, a regulatory database review, and a visual inspection of the Project Area.

2.0 GEOLOGIC SETTING

The Project Area is located in the Erie Lake Plain Physiographic Region of the Interior Low Plateau Physiographic Province in Ohio (Brockman). The Erie Lake Plain is characterized by ground surface that slopes gently toward Lake Erie and is dissected by re-entrant valleys, such as the Cuyahoga River Valley, draining northward to Lake Erie.

Elevations in the project area vary from approximately 680 feet above mean sea level (msl) for the majority of the Corridor to approximately 560 feet above msl in the Industrial Valley (USGS).

According to the Soil Survey of Cuyahoga County (USDA), the project area is classified as Urban Land. The Urban Land designation indicates that 80 percent of the surface is covered by manmade materials (e.g., buildings, concrete, and asphalt). The Erie Lake Plain in this portion of Cleveland is underlain by subsurface soils consisting primarily of Pleistocene to recent-aged sand and gravel. Surficial materials beneath the Property and vicinity likely consist of "made land" (e.g., fill material). The unconsolidated sediments are underlain by the Devonian-aged Ohio Shale Formation.

Potable water for the area surrounding the Property is obtained from Lake Erie and distributed by the City of Cleveland. Based on the availability of municipally supplied potable water, groundwater resources in the area are not likely to be developed for future potable use.

The Cleveland Innerbelt Study is located in a highly urbanized area. Land usage ranges from high density residential to predominantly industrial and commercial.

3.0 PROJECT AREA HISTORY

3.1 SANBORN FIRE INSURANCE MAPS

URS reviewed Sanborn Fire Insurance Maps at the Cleveland Public Library. Sanborn Maps of the Project Area, ranging from 1952 through 1972, were reviewed. Copies of the Sanborn Maps are included in **Appendix C**.

Study Area 1 – The 1966 Sanborn Map was reviewed for this Study Area, which appears primarily to be residential properties. A filling station and a radiator repair shop are depicted on the triangular piece of land where Scranton Road and West 25th Street diverge (**Former Bauer Auto**).

Study Area 2 – The 1952 and 1971 Sanborn Maps were reviewed for this Study Area, which appears primarily to be residential properties at the southern end. A steel cutting factory and the former Reeve Cleaning Company are depicted along the west side of West 15th Street (**Stripmatic, Former Glove Cleaning Service/Scranton Averell**). Commercial and industrial properties are located southwest of the Project Area, along Scranton Road.

Multiple industrial properties including a woodworking factory, a clothes hanger manufacturer, a refinishing company, and a chemical company are located in the Cuyahoga River Valley. In addition, railroad tracks, rail yards and freight service buildings are common features of this industrial area.

Study Area 3 – The 1952 and 1969 Sanborn Maps were reviewed for the Study Area, which is comprised primarily of commercial properties. Numerous freight stations were located along the south side of Orange Avenue, east of Broadway, which likely were associated with the New York Central Rail Road Freight Depot located in this area. Large grocery warehouses are located at the east end of this Area, near East 30th Street (**Charles Martin, JF Sanson**). The Independent Towel Company is located along Central Avenue; the map indicates cutting, sewing and laundry activities are conducted (**Meridian Properties/Independent Towel**). Small retail structures, apartment buildings and warehouse buildings are located east and north of the Central Interchange.

Study Area 4 – The 1952, 1969 and 1972 Sanborn Maps were reviewed for the Study Area, which is comprised of commercial properties. Along the west side of the Innerbelt, from Carnegie Avenue to Chester Avenue, were several office buildings and numerous surface parking lots. Many parcels were owned by Cleveland State University and operated for educational use. Land use was predominantly residential along both sides of East 26th Street north of Superior Avenue, with commercial properties located on the south side of St. Clair Avenue. North of St. Clair Avenue to the Pennsylvania Railroad was primarily commercial.

Along the east side of the Innerbelt, the land use was commercial and industrial. A metal finishing and plating company was located along the east side of 27th Street (**Former Teledyne Metal Finishing**). There is a tire sales and service center at the northwest corner of Payne and East 27th Street (**KNC Building Company**). The west side of East 27th Street is depicted as residential. North of Superior Avenue through to St. Clair Avenue, land use was a mix of residential and commercial.

Study Area 5 – The 1952 and 1972 Sanborn Maps were reviewed for this Study Area. A chemical and cleaning supplies warehouse is identified along Hamilton Avenue (**State Industrial Products**). This property was identified as a machine shop, roofing material warehouse, glass

window manufacturer, and a motor freight station on the 1952 Map. The area north of Lakeside Avenue, between East 26th and East 36th Streets formerly was the Laughlin Steel Corporation Lakeside Plant, according to the 1952 Map.

3.2 AERIAL PHOTOGRAPHS

Historical aerial photographs of the Project Area dated 1951, 1959, 1979, and 1988 were obtained from the Cuyahoga County Soil and Water Conservation District. Aerial photographs dated 2001 were taken by ODOT for the Cleveland Innerbelt Study. Copies of the aerial photographs are included in **Appendix C**.

Study Area 1 – In the 1951 photograph, the land from Fulton Road to the Cuyahoga River Valley appears to have been primarily residential. Riverside Cemetery is apparent, with Metro Hospital to the west and LTV Steel to the east.

In the 1959 photograph, the Innerbelt appears to be under construction. Other than the highway construction, this section appears to be relatively unchanged from the 1951 photograph.

In the 1979 photograph, Metro Hospital has expanded over land that was previously residential.

This section appears to be relatively unchanged from the 1979 photograph.

In the 2001 photograph, it appears Metro Health Hospital has expanded along the west side of I-71, north of West 25th Street.

Study Area 2 – In the 1951 photograph, there appears to be an area of soil disturbance or filling activity behind a large building on West 14th Street just south of Holmden Avenue.

In the 1959 photograph, the area of soil disturbance and/or filling on West 14th Street, south of Holmden Avenue appears to be larger. The Central Viaduct Bridge is constructed with connecting ramps on the south side of the bridge at Abbey Road.

In the 1979 photograph, the area of soil disturbance on West 14th Street, south of Holmden Avenue appears to be mostly grown over with vegetation.

In the 1988 and 2001 photographs, this section appears to be relatively unchanged from the 1979 photograph.

Study Area 3 -- In the 1951 photograph, there appears to be many residential and larger commercial structures between the current locations of Orange/Woodland Avenues. There also appears to be a railroad yard and the associated rail facilities south of Broadway Road. North of Woodland Avenue, the land that will become the Innerbelt appears to be warehouse/storage structures, commercial buildings and some isolated residential structures.

In the 1959 photograph, the Central Viaduct Bridge is constructed with connecting ramps on the north side of the bridge at Broadway Road, Ontario Avenue and East 9th Street. Many of the warehouse structures south of Carnegie and East 9th Street have been removed to make way for the Central Interchange. East of East 9th Street, there appears to be parking lots, vacant land, and residential and commercial structures. I-77 has not been constructed.

In the 1979 photograph, there is commercial construction on land that was previously residential, east of the Central Interchange. There is construction on the south side of I-77, for the Cleveland Post Office.

In the 1988 photograph, the Cleveland State Convocation Center is under construction, taking the place of former commercial structures.

In the 2001 photograph, the land south of Broadway, which was formerly associated with the railroad, is vacant. Jacobs Field and Gund Arena have been constructed on the north side of Carnegie Avenue.

Study Area 4 – In the 1951 photograph, there appears to be primarily commercial land use, with limited residential use.

In the 1959 photograph, the Innerbelt trench is under construction from the Central Interchange to the I-90/SR 2 interchange.

In the 1979 photograph, this section appears to be relatively unchanged from the 1959 photograph.

In the 1988 and 2001 photographs, this section appears to be relatively unchanged from the 1979 photograph.

Study Area 5 – In the 1951 photograph, there appears to be primarily commercial land use.

In the 1959 photograph, State Route 2 and the Curve have been constructed.

In the 1979 photograph, this section appears to be relatively unchanged from the 1959 photograph.

In the 1988 and 2001 photographs, this section appears to be relatively unchanged from the 1979 photograph.

4.0 REGULATORY DATA BASE REVIEW

URS reviewed information gathered from multiple environmental databases compiled by Environmental Data Resources, Inc. (EDR) in order to evaluate, to the extent possible, whether activities on or near the Project Area have the potential to create adverse environmental impacts for the planned alternatives. EDR reviews databases compiled by federal, state, and local government agencies. A copy of the EDR Report is provided in **Appendix D**.

It should be noted that this information is reported as URS received it from EDR, which in turn reports information as it is provided in various government databases. It is not possible for either URS or EDR to verify the accuracy or completeness of information contained in these databases. However, the use of and reliance on this information is a generally accepted practice in the conduct of environmental due diligence.

The EDR review was completed to identify environmental concerns within one-quarter mile of the project study area. The following table presents the environmental databases reviewed as part of the EDR screening, the search distance and the number of sites identified as being located within the study area.

Environmental Database Summary		
Type of Database	**Description of Database/Effective Date**	**Number of Sites Identified**
NPL	The National Priorities List identifies uncontrolled or abandoned hazardous waste sites. To appear on the NPL, sites must have met or surpassed a predetermined hazard ranking system score, been chosen as a state's top priority site, pose a significant health or environmental threat, or be a site where the EPA has determined that remedial action is more cost-effective than removal action.	0
CORRACTS	Listing of RCRA facilities that are undergoing corrective action. Corrective actions may be required beyond the facility's boundary and can be required regardless of when the release occurred, even if it predates RCRA.	0
CERCLIS	The Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) database identifies hazardous waste sites that require investigation and possible remedial action to mitigate potential negative impacts on human health or the environment.	1
CERCLIS-NFRAP	CERCLIS sites designated "No Further Remedial Action Planned". NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund action or NPL consideration.	1

Environmental Database Summary		
Type of Database	**Description of Database/Effective Date**	**Number of Sites Identified**
RCRA TSDs	Resource Conservation & Recovery Act treatment, storage or disposal facilities	1
RCRA Generators	RCRA hazardous waste generator notifiers list; both Large and Small Quantity Generators are included	30
ERNS and state spills list	EPA's Emergency Response Notification System (ERNS) list contains reported spill records of oil and hazardous substances	7
SWLF	State inventory of solid waste disposal and landfill sites	0
LUST	List of information pertaining to all reported leaking underground storage tanks	45
UST	State-registered underground storage tank sites	11
MLTS	Material Licensing Tracking System is maintained by the Nuclear Regulatory Commission (NRC) and contains a list of sites, which possess or use radioactive materials and are subject to NRC licensing requirements.	2

Study Area 1

Former Bauer Auto, 3553 West 25th Street, is listed as a LUST facility. A Site Assessment has been completed for the property, which is currently owned by Metro Health. The site is located at the divergence of Scranton Road and West 25th Street, which is approximately 200 feet north of the right-of-way. No right-of-way is proposed for acquisition along this section of the Innerbelt. However, soil excavation is planned for the reconstruction and relocation of the existing C-D roadway. Any release from the site could have potentially migrated downgradient towards the Innerbelt and the associated C-D roadway. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

EDR Site 140 is a reported surface spill of transformer oil at 4323 Leading Avenue. The spill was the result of a leaking transformer at the rear of the property. The leaking transformer site is located approximately 500 feet west of the Innerbelt. No right-of-way is proposed to be acquired. Given the small quantity of the surface spill, occurrence over 11 years ago and proximity of the site to the Innerbelt, it is unlikely that any product remains at the site, which would pose a potential hazard for this project.

EDR Site 142 is a reported surface spill of Jet A fuel, near 3500 Riverside Avenue. The spill was the result of a damaged fuel tank, which was reported in May of 1993. The spill site is located approximately 200 feet south of the Innerbelt. No right-of-way is proposed to be acquired. Given the small quantity of the surface spill, occurrence over ten years ago and proximity of the site to the

Innerbelt, it is unlikely that any product remains at the site, which would pose a potential hazard for this project.

The Former Truck Garage, located at 4352 Archwood Avenue, is an active LUST site with an initial corrective action report having been completed. No additional work has been done at the site in the last ten years, which is currently vacant. The site is located on the west side of Fulton Road, outside the Project Area. Given the current status of the site and proximity of the site to the Innerbelt, it is unlikely this site would pose a potential hazard to this project.

Study Area 2

The Cleveland Cold Storage Building, 2000 West 14th Street, is on the Facilities Index System (FINDS). FINDS contains facility information and "pointers" to other regulatory databases. No further information was available from the EDR Report. This site is a complete property take. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

Scranton Averell, Inc., 2140 West 15th Street, has two LUST incidents reported. The first incident pertains to the closure of six regulated USTs. A No Further Action (NFA) letter was issued by the Bureau of Underground Storage Tank Regulations (BUSTR) for this incident. The second incident also pertains to the closure of regulated USTs. The incident is considered active by the BUSTR, as no closure report has been received. The site is located along the west side of the Innerbelt within 100 feet of the planned Central Viaduct Bridge construction. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

Grace Hospital located at 2307 West 14th Street, is in the Material Licensing Tracking System (MLTS), which is maintained by the Nuclear Regulatory Commission (NRC). The license was effective from 1986 through 1991 and there is no current reported use, storage, or disposal of radioactive material. This site does not warrant additional investigation.

A vacant lot at 2644 West 14th Street is on the LUST list. The USTs reportedly have been removed and a NFA letter has been issued. No further investigation is warranted for this site.

Lincoln Intermediate School located at 1701 Castle Road, is listed as a RCRIS-Small Quantity Generator (SQG). There are no reported violations for this site. The school is located approximately 400 feet east of the Innerbelt. No additional investigation is warranted for this site.

Three gasoline stations located at the corner of West 14th Street and Clark Avenue were identified as UST sites. The stations are located approximately 300 feet east of the Innerbelt and are not proposed property takes. There have been no reports of a release at any of the three gasoline filling stations; BP Oil, Gas City and Clark. Based on the available information and the planned construction, there does not appear to be an elevated potential for environmental risk from the filling stations, therefore, no additional investigation is warranted.

The City of Cleveland Fire Department, 310 Carnegie Avenue, is listed as a LUST facility. Regulated USTs reportedly were removed from the site in May 2003. An NFA letter was issued by BUSTR for the closure. This site is a complete property take. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

The Norfolk & Western Railway, 308 Central Viaduct, is listed as a LUST facility. Regulated USTs reportedly were removed from the site in December 1993. An NFA letter was issued by

BUSTR. This site is a complete property take. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

Terminal Oil Company, 300 Central Viaduct, is listed as a LUST, RCRIS-SQG, and UST facility. Regulated USTs reportedly were removed from the site in 1992. An NFA letter was issued by BUSTR for the closure. USTs were installed on the site in 1992 and reported to be currently active. There are no reported RCRA violations associated with the SQG status. This site is a complete property take. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

Design Union, 1902 West Third Street, is listed as a LUST facility. The incident reportedly is associated with the closure of regulated USTs. A NFA letter was issued by BUSTR concerning the release. This site is a complete property take. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

Kenmore Asphalt Products Inc., address not provided, is listed on the OHSPILLS database. The listing reportedly is because the facility spread used motor oil for dust control in their driveway. The date of the reported release is October 1998. The driveway currently is asphalt-paved. This site is a complete property take. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

Erie Industrial Services, 1986 West Third Street, is listed as a RCRA-SQG. There reportedly are no violations associated with this listing. This site is a complete property take. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

Interstate Agency Building, 1978 West Third Street, is listed on the LUST database. The listing is associated with the removal of regulated USTs. A NFA letter was issued for the facility. This site is a complete property take. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

Study Area 3

A former Marathon gasoline station, located at 1851 Carnegie Avenue, is listed as a LUST facility and RCRA-SQG. The USTs reportedly have been removed, although the site is listed as active. A site assessment has been completed for the facility. There are no RCRA violations found for the site. While the site is located near the Central Interchange, no new right-of-way is planned for this section. It is unlikely this site poses an environmental risk to the planned project.

The former Mr. Magic Car Wash, located at 1911 Carnegie Avenue, is listed as a LUST facility. The USTs reportedly have been removed, although the site is listed as active. Corrective actions reportedly are being conducted at the facility. While the site is located near the Central Interchange, no new right-of-way is planned for this section. It is unlikely this site poses an environmental risk to the planned project.

Dindia & Associates, 2245 East 14th Street, is on the unregulated LUST list. In addition, this site encompasses two other EDR listings. 1) A vacant building, 2215 East 14th Street, is listed on the LUST database. The regulated USTs were removed and the facility is listed as inactive. A NFA letter was issued in December 2002. 2) Dorn Color Inc., 2215 E 14th Street, is listed as a RCRA-SQG. There have been six violations reported: one for air emission and the remaining five for pre-transportation requirements. This site is located approximately 400 feet north of the Central Interchange. Though there are multiple database listings for this facility, it is located a substantial

distance north of any planned construction and no right-of-way is proposed, therefore, it is unlikely this site poses an environmental risk to the planned project.

BP Oil Company filling station, 1335 Carnegie Avenue, is listed as a LUST facility as well as a RCRA-SQG. The USTs reportedly were removed from the site and it is currently listed as inactive. A NFA letter was issued by BUSTR. There were no RCRA violations found for the facility. This property is not a proposed property take. As this facility apparently is no longer in operation and there do not appear to be any outstanding regulatory violations, it is unlikely this site poses an environmental risk to the planned project.

Thrifty Car Rental, 1802 Central Avenue, is listed on several regulatory databases under different companies. Thrifty Car Rental is listed as a RCRA-SQG with no violations. The former Independent Towel is listed as a LUST facility. The USTs reportedly have been removed; however, the status is listed as active. BUSTR has sent a noncompliance letter to the owner, with no response. Union Industries Division is on the FINDS list. It appears that this facility has had past releases of unknown constituents to the air. This site is a complete property take. As there is the potential for environmental risk, additional investigation in the form of a Phase I ESA is warranted.

BP Oil Company gasoline station, 900 Carnegie Avenue, is listed on the LUST, UST and RCRA-SQG databases. USTS reportedly were removed in 1984 and a NFA letter has been issued by BUSTR. Three USTs subsequently were installed in 1984, which are currently in use. This property is not a proposed property take. There have been no RCRA violations found for the facility and no additional investigation is recommended.

St. Vincent Charity Hospital, which encompasses several addresses, is listed on the LUST, UST, MLTS, and RCRA-SQG databases. USTs were removed in November 1997 and a NFA letter was issued by BUSTR. Two USTs subsequently were installed and are currently in use. There are no violations of storage, redistribution, or disposal of radioactive materials under MLTS. There are no reported RCRA violations. The medical complex is located between 300 to 1,000 feet east of the Project Area. This property is not a proposed property take. The hospital does not appear to pose a potential environmental hazard therefore; no additional investigation is warranted at this time.

United States Postal Service, 1801 Broadway Avenue, is listed on the OHSPILLS, UST, LUST, and RCRA-SQG databases. A spill of petroleum product was reported in November 1993. The spill, which was reportedly as 'small in quantity', was released into a storm sewer. USTs reportedly were removed in 1998. A NFA letter was issued by BUSTR. Three USTs subsequently were installed and currently are in use. One RCRA violation, for oversight, for was reported in August 1987. The violation was brought into compliance in 1988. The facility is located approximately ¼ mile south of the Innerbelt and no right-of-way is proposed for acquisition. The site does not appear to pose a potential environmental hazard therefore; no additional investigation is warranted at this time.

Americo Inc., 3500 Woodland Avenue, is on the LUST list. USTs reportedly have been removed and the facility is listed as inactive. BUSTR has issued a NFA letter concerning the site. This property is not a proposed property take. The site does not appear to pose a potential environmental hazard therefore; no additional investigation is warranted at this time.

Northern Ohio Food Terminal, 3800 Orange Avenue, is on the LUST list. USTs reportedly were removed and the site is listed as inactive. BUSTR has issued a NFA letter concerning the facility. This property is not a proposed property take. The site does not appear to pose a potential environmental hazard therefore; no additional investigation is warranted at this time.

Cleveland Express Trucking Company Inc., 3091 Broadway Avenue, is on the LUST and RCRA-SQG databases. USTs reportedly were removed in March 1999. A NFA letter has been issued by BUSTR. No RCRA violations were reported for the facility. This property is not a proposed property take. The site does not appear to pose a potential environmental hazard to the project and no additional investigation is warranted at this time.

Sanson Company, 3706 Croton Avenue, is listed on the LUST database. USTs reportedly were removed and the site is currently inactive. A NFA letter was issued by BUSTR. This property is not a proposed property take. The site does not appear to pose a potential environmental hazard to the project and no additional investigation is warranted at this time.

Gateway Cold Storage, 3725 Croton Avenue, is on the OHSPILLS database. The site reportedly had a release of ammonia gas in July 1998. There was no response to the release by OEPA. This property is not a proposed property take. The site does not appear to pose a potential environmental hazard therefore; no additional investigation is warranted at this time.

Study Area 4

Mill Supply Company, 3241 Superior Avenue, is on the LUST list. Regulated USTs reportedly were removed in August 1997. A NFA letter has been issued by BUSTR. The site is not recommended for additional investigation.

Harp Realty Company, 3437 Superior Avenue, is on the LUST list. Regulated USTs reportedly were removed in August 1997. A NFA letter has been issued by BUSTR. The site is not recommended for additional investigation.

Arth Brass & Aluminum Castings Incorporated, 1378 East 33rd Street, is listed on the FINDS database. The site was not found on any other regulatory database and there is no additional information available that would indicate an environmental concern. The site is not recommended for additional investigation.

Asia Foods Inc., 3126 St. Clair Avenue, is on the LUST list. Regulated USTs reportedly were removed in August 1997. A NFA letter has been issued by BUSTR. The site is not recommended for additional investigation.

Cleveland Recapping Inc., 3128 St. Clair Avenue, is listed on the FINDS database. The site was not found on any other regulatory database and there is no additional information available that would indicate an environmental concern. The site is not recommended for additional investigation.

Economy Plating, 1394 East 34th Street, is listed on the CERCLIS, RCRA-SQG and DERR databases. The site was referred to removal from the CERCLIS-NFRAP, as the site is no longer on the NPL. There have been 18 RCRA violations reported for the site. This site is located approximately 500 feet of the planned right-of-way acquisitions for the Project Area and is not considered to pose an environmental hazard. The site is not recommended for additional investigation.

Control Exterminating Company, 3202 St. Clair Avenue, is listed as a RCRA-SQG. There are no reported RCRA violations. The site is not recommended for additional investigation.

R & D Auto, 3312 St. Clair Avenue, is listed as a RCRA-SQG. There are no reported RCRA violations. The site is not recommended for additional investigation.

Commercial Electric Product Corporation, 2701 St. Clair Avenue, is listed as RCRA-SQG. There are no reported RCRA violations. The site is not recommended for additional investigation.

Greyhound Lines Inc., 2600 Hamilton Avenue, is listed on the LUST and RCRA-SQG databases. A release from a registered UST was reported in January 1986. An NFA letter was issued by BUSTR for the incident. There are no reported RCRA violations for the facility. No additional investigation is warranted for the facility.

Yuasa Exide Inc., 2635 Hamilton Avenue, is listed as RCRA-SQG. There are no reported RCRA violations. The site is not recommended for additional investigation.

Triton Transport Services, Inc., 2701 Lakeside Avenue, is on the LUST list. A suspected release was reported in May 1992. An initial corrective action is still pending and the incident is listed as active. The site is not recommended for additional investigation.

A vacant parcel, 1400 East 30th Street, is on the FINDS list. The site was not listed on any other regulatory database and there is no additional information available. This parcel is complete property take therefore, it is recommended for additional investigation.

Gestner Corporation, 3020 Superior Avenue, is listed as a RCRA-SQG. No RCRA violations were reported and no further investigation is recommended.

Mueller Electric Company, 1583 East 31st Street, is listed as a RCRA-SQG. No RCRA violations were reported and no further investigation is recommended.

BP Oil, 2701 Chester Avenue, is listed on the UST and RCRA-SQG databases. Three USTs were installed in 1985 and are currently in use. No RCRA violations were reported. New right-of-way is proposed for acquisition along this section of the Innerbelt and additional investigation is recommended for the site.

Unknown, 2811 Chester Avenue, is listed on the LUST database. USTs reportedly were removed, which is currently listed as inactive. A NFA letter was issued by BUSTR. No additional investigation is recommended for the site.

ColorMatrix Corporation, 3005 Chester Avenue, is listed as a RCRA-SQG. There are no reported RCRA violations and no further investigation is recommended.

Chrome Industries Inc., 3041 Perkins Avenue, is listed as a RCRA-LQG. There are no reported RCRA violations and no further investigation is recommended.

Phillips, Day & Maddock, Inc., 1800 East 30th Street, is listed on the OHSPILLS, LUST, and RCRA-SQG databases. An oil spill of unknown quantity was reported in July 2002, which discharged to the storm sewers. No other information is available regarding the spill. An unregistered leaking UST was identified in 1991. No other information is available concerning the presence or removal of the UST. No RCRA violations were reported for the site. This site is located approximately 300 feet from the planned right-of-way acquisition for the Project Area therefore, no further investigation is recommended.

Procleve Investments Ltd., 1781 East 30th Street, is on the LUST list. USTs reportedly have been removed and the site is listed as inactive. A NFA letter has been issued by BUSTR. No additional investigation is recommended for the site.

Former GR Klein News Company, 1771 East 30th Street, is on the LUST and RCRA-SQG databases. Regulated USTs reportedly were removed and the site is currently listed as inactive. A NFA letter has been issued by BUSTR. There are no reported RCRA violations for the site. No additional investigation is recommended for the site.

1748 East 27th Street is listed as an abandonment/dump site for drums. The drums were reported as small in size, approximately 5-gallons; however, the quantity of drums was not provided. No other information was available regarding the drums. This site is a complete property take. Further investigation is recommended.

Teledyne Metal Finishing Company, 1725 East 27th Street, is listed as a RCRA-TSD and RCRA-SQG. Three violations have been reported. This site is a complete property take therefore, further investigation is recommended.

Kraber Industries, 1711 East 27th Street, is on the LUST list. Regulated USTs reportedly were removed and the site is listed as inactive. A NFA letter was issued by BUSTR. No additional investigation is recommended for the facility.

Asia Plaza, 2727 Payne Avenue, is on the LUST list. Regulated USTs reportedly were removed and the site is listed as inactive. A NFA letter was issued for the site by BUSTR. No additional investigation is recommended for the facility.

George R. Klein News Company, 2950 Payne Avenue, is listed on the LUST database. A suspected release from a regulated UST was reported. A NFA letter was issued by BUSTR. No additional investigation is recommended for the facility.

Health Careers Center, 1740 E 32nd Street, is listed as a RCRA-SQG. There are no reported RCRA violations. No additional investigation is warranted for the site.

Study Area 5

Tempcraft Incorporated, 3960 South Marginal Road, is listed as a RCRA-SQG. There are no RCRA violations reported for the site. No additional investigation is recommended for the site.

Aviation High School, 4101 North Marginal Road, is listed a LUST and RCRA-SQG facility. A UST was suspected of leaking in September 1991. A NFA letter was issued for the incident. There are no RCRA violations reported for the site. No additional investigation is recommended for the site.

Cleveland Maintenance Garage, 40th Street and South Marginal Road, is listed on the LUST database. A UST at the site was suspected of leaking. A NFA letter was issued for the incident. No additional investigation is recommended for the site.

City of Cleveland, 4150 South Marginal Road, is listed on the UST database. Two USTs reportedly are currently in use, which were installed in October 1988. This site is not listed on the LUST database. No additional investigation is recommended for this site.

State Manufacturing Company, 3100 Hamilton Avenue, is listed on the SSTS, which is Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act. SSTS requires registered pesticide-producing establishments to submit a report to EPA, which details the types and amounts of pesticides; active ingredients produced and distributed each year. The site also is listed on the

OHSPILLS, UST, LUST, and RCRA-LQG databases. A spill was reported in September 1991. The size of the caustic materials spill is listed as unknown. The spill was released to an adjacent storm sewer and there was no emergency response. Registered USTs were removed from the site, which also pertains to the reported LUST listing. A NFA letter was issued for the closure. Subsequently, four USTs were installed in 1997. No RCRA violations were reported. This site is complete property take. Further investigation via a Phase I ESA is recommended for this site.

Adelphia Cable, 3400 Lakeside Avenue, is on the LUST and UST databases. Regulated USTs reportedly were removed in August 1997. A NFA letter has been issued by BUSTR. A UST was installed in April 1999 and is currently in use. No additional investigation is recommended at the facility.

Alex Brothers, 3515 Lakeside Avenue, is listed on the LUST database. Regulated USTs reportedly were removed in September 2002. The site is listed as active by BUSTR. No right-of-way acquisition is proposed for this section of the Innerbelt. No additional investigation is recommended for the facility.

Mclean Company, 3525 Lakeside Avenue, is listed on the LUST and RCRA-SQG databases. A UST was suspected of leaking. Further investigation resulted in a NFA letter, issued by BUSTR. No RCRA violations were reported. No additional investigation is warranted for the site.

Keahy Trucking Company, 3621 Lakeside Avenue, is listed on the LUST and RCRA-SQG databases. A UST was suspected of leaking. A Site Assessment has been submitted to BUSTR. There are no reported RCRA violations. No right-of-way acquisition is proposed for this section of the Innerbelt. No additional investigation is recommended for the site.

Marich Machine &Tool Company, 3815 Lakeside Avenue, is listed on the LUST database. A UST was suspected of leaking. A NFA letter was issued by BUSTR. No additional investigation is recommended for the site.

Sidari's Italian Foods, 3820 Lakeside Avenue, is listed on the LUST database. Regulated USTs reportedly were removed. A NFA letter was issued by BUSTR. No additional investigation is recommended at the facility.

Superior Alloy Steel Company, 3827 Lakeside Avenue, is listed on the LUST database. Regulated USTs reportedly were removed. A NFA letter was issued by BUSTR. No additional investigation is recommended at the facility.

5.0 VISUAL INSPECTION

URS conducted a multiple visual inspections of the Project Area during September and October 2005. The visual inspection was conducted to identify current land uses and the potential for contamination by hazardous substances. The weather generally was sunny with temperatures in the upper 60's F. The reconnaissance was conducted on foot and included a visual inspection of all properties along the project corridor. Items of interest during the site walkover were features indicative of hazardous material handling, storage, or disposal including evidence of surface/soil staining, aboveground and underground storage tanks, drums, soil disturbance, distressed vegetation, and surface lagoons. Observations are discussed by Study Area below, and were further recorded on Site Screening Checklists (**Appendix B**).

Study Area 1

Land use abutting the north and south sides of I-71 from Fulton Road to West 25th Street primarily is residential. Along the north side, Metro Hospital occupies the land between West 25th Street and the Jennings Freeway merge. Land use abutting the south side, from West 25th Street to the Jennings Freeway Merge, is Riverside Cemetery.

Land use along the west side of the Innerbelt, between the Jennings Merge and the I-71/I-90 Interchange, is primarily. Land use along the east side, between the Jennings Merge and the Interchange, is mixture of industrial, ISG Steel and residential, the Tremont neighborhood.

There was no visual evidence of hazardous or regulated material or mismanagement of potentially hazardous materials along this study area during the site walkover.

Study Area 2

North of the I-71/I-90 interchange and south of the Central Viaduct Bridge, land use is primarily residential with increasingly industrial use as one approaches the Bridge, particularly along the west side. Several light industrial properties and warehouses are located along the west side of the Bridge approach, along Abbey Road.

The land beneath the Central Viaduct Bridge is currently and has been historically heavy industry land use. The land in-between the Lorain-Carnegie Bridge and the Central Viaduct Bridge is mixed industrial and commercial use. Two aboveground storage tanks (ASTs) were observed near an office building on West Third Street, along with several 55-gallon drums.

Study Area 3

Land use in the Central Interchange primarily is transportation-related; with right-of way owned by ODOT used for I-90 and I-77, as well as the associated connecting ramps to local streets.

Land on the south side of the Central Interchange, south of Broadway Avenue, is currently used as a parking lot for Jacobs Field employees and the staging of shipping containers. Land use along Carnegie Avenue is a mixture of commercial and office buildings. On the east side of the Central Interchange, are medical and office buildings.

Land use along the north side of I-77, from the Central Interchange southward, consists of office buildings, parking lots, medical facilities, and Cuyahoga Community College. Land use along the

south side of I-77, from the Central Interchange southward, includes the Cleveland Black Oxide Company, gravel and asphalt-covered land and the Cleveland U.S. Post Office. The post office operations encompass vehicle maintenance and fueling structures, as well as large surface parking lots. East of the post office is the Cuyahoga County Corrections facility.

Study Area 4

Land use along the west side of the Innerbelt Trench is a mixture of commercial and office buildings. Cleveland State University is located between Euclid and Chester Avenues. North of Chester Avenue is Cleveland State University's maintenance facilities. Multiple drums were noted as staged near the building as well as an AST. North of Cleveland State, the land use is a mixture of commercial and office buildings. North of Lakeside Avenue is a large truck repair/rental operation. Surface staining was noticed in the parking lot/trailer staging area and drums were staged about the property.

Land use along the east side of the Innerbelt Trench is primarily office and commercial structures, with some isolated single-family dwellings and apartment buildings. North of St. Clair Avenue, land uses changes to light industrial and warehouses.

Study Area 5

Along the east side of I-90, near the approach to the Curve, is the City of Cleveland Fire Training Academy and various large warehouses and commercial buildings. The east and west sides of I-90, north of the CSX Railroad tracks, are primarily transportation use, with right-of-way owned by ODOT. Transportation use includes the mainlines of both I-90 and SR 2, the North and South Marginal Roads that run parallel to SR 2, and the connecting roadway ramps between SR 2 and I-90.

Just north of the CSX railroad tracks, on East 38th Street, are the Cleveland Mounted Police Stables. Across the East 38th Street is a large parking lot owned associated with the Temp Craft Company, Inc.

6.0 PHASE I ENVIRONMENTAL SITE ASSESSMENTS

As a result of the Environmental Site Assessment Screening, 33 properties within the Project Area were identified that warranted additional study in the form of a Phase I ESA. As part of the Phase I ESA, additional historic research was conducted, regulatory agency file reviews were conducted, a reconnaissance of each property was conducted, and property owner/representative interviews were conducted, when possible.

The Phase I ESA is the second step in determining the likelihood of hazardous and/or regulated substances to adversely impact the Project Area. Information gathered from the Phase I ESA along with the currently proposed roadway configuration will be used to determine if additional study in the form of a Phase II ESA is necessary. Photographs of the sites are included in **Appendix E**. Site-specific information is included in **Appendix F**. The currently proposed roadway configuration maps are included in **Appendix G**. The following table summarizes the properties identified for Phase I ESAs.

Phase I ESA Summary Table

Site Number	Site	Address	Rationale
2	Former Bauer Auto	3553 West 25th Street	LUST
	CENTRAL VIADUCT - NORTH		
11	Stripmatic	1501 Abbey Road	LUST
13	Former Glove Cleaning Service/Scranton Averell	2132-2150 West 15th Street	Historic Operations
14	Bojacks Meats	1425 University/2000 West 14th Street	Property Take
15	Leon Rudnick	1402-1408 Abbey Road	Property Take
16	Wendell & Carroll Collins/1501 Companies	West 15th Street	Property Take
17	Terminal Oil	308 Central Viaduct	UST*
18	Cleveland Fire Station	310 Carnegie	Property Take
19	Gillota Fuel Products	206-300 Central Viaduct	Property Take
20	Earl Lee	2394 Canal Road	Property Take
21	White Properties	1996 West 3rd Street	Property Take
22	Nova Properties	West 4th Street	Property Take
23	NS Railroad Building	840 Minkon Lane	Property Take
24	James Vincent	2515 Canal Road	Property Take
	CENTRAL INTERCHANGE		
27	Meridian Properties/Independent Towel	1802 Central Avenue	RCRA SQG, LUST*
57	Charles Martin	3501 Croton	Property Take
58	JF Sanson	3561 Burwell	Property Take
	TRENCH		
29	BP Gas Station	2701 Chester	UST
33	State Industrial Products/Information Systems Building	3100 Hamilton	RCRA SQG, LUST, OH Spills, PCBs*

Site Number	Site	Address	Rationale
34	Former Teledyne Metal Finishing	1725 East 27th Street	RCRA TSD
41	1400 East 30th Partners	1400 East 30th Street	Property Take
42	CB Realty	2975 Superior	Property Take
43	KNC Building	2635 Payne	Property Take
44	EJ Investments	2630 Payne	Property Take
45	Harold Moss, Trustee	1748 East 27th Street	Property Take
46	Tri Building	2728 Euclid	Property Take
47	GKC Limited	2729 Prospect	Property Take
48	Parkwood Corporation	2829 Euclid	Property Take
49	Julius Sorma	3004 St. Clair	Property Take
	INNERBELT CURVE		
50	Cleveland Mounted Police	1150 East 38th Street	Property Take
51	Temp Craft Plastics	3960 South Marginal	Manufacturing
52	Architectural Real Estate	3000 Lakeside	Property Take
53	Cleveland Fire Academy	3101 Lakeside	Property Take

* - Property Take

6.1 SITE #2 – FORMER BAUER AUTO

This site is addressed as 3553 West 25th Street. According to the Cuyahoga County Auditor, this site is owned by the Cuyahoga County Commissioners. The site is further identified as Permanent Parcel Number 008-20-016.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as a radiator repair shop from 1954 through 1984. In the 1989 Directory, the site is identified as Bauer Auto Radiator and Pittsburgh Radiator Company.

The site was identified as a LUST site in the EDR Report. According to the City of Cleveland Fire Prevention Bureau files, five 2,500-gallon USTs were abandoned in place, with the approval of the Cleveland Fire Department, in August 1966. No further information was available regarding these USTs.

URS conducted a file review at the BUSTR office in Reynoldsburg, Ohio. In 1992, the aforementioned abandoned-in-place USTs were removed from the property. Soil borings were advanced and soil and groundwater samples were collected and submitted for laboratory analysis. Benzene, toluene, ethyl benzene and total xylenes (BTEX) constituents were detected in the soil and groundwater samples, in excess of the applicable BUSTR Action Levels. In 1995, BUSTR indicated a Site Assessment would have to be conducted to further address the elevated contaminants. A Responsible Party Search was conducted by the State Attorney General; reportedly, these USTs were last utilized in 1966 by the Shell Oil Company. According to the files, there has been no further investigation conducted and the elevated contaminants remain in the soil and groundwater.

URS conducted a reconnaissance of the site, which is primarily vacant. A Metro Health Hospital sign was observed on the central portion of the site. The remaining portion of the site is landscaped.

No evidence of spills, stressed vegetation and/or the storage or handling of hazardous materials was observed on the site. No one was available for interviews regarding the site.

6.2 SITE #11 – STRIPMATIC

This site is addressed as 1501 Abbey Road. According to the Cuyahoga County Auditor, this site is owned by Scranton-Averell, Inc. The site is further identified as Permanent Parcel Number 004-25-012.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is first listed as K & R Manufacturing Company in the 1979 and 1984 City Directories. From 1989 through 1999, the site is listed as Scranton Manufacturing Company.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by the Abbey Wrecking Company in 1941. In approximately 1944, the site became occupied by the Newman Wrecking Company. A 5,000-gallon #2 fuel oil UST reportedly was installed at the site in 1952, which was to be utilized by American Cartage. In 1969, the site reportedly is occupied by Stripmatic.

On September 1, 1995, a permit was issued by the Fire Prevention Bureau, to abandon-in-place a 4,000-gallon heating oil UST. A comparison of the installation and removal permits indicates this is the aforementioned 5,000-gallon #2 fuel oil UST. The abandonment was conducted by Samsel Services Company on September 28, 1995, reportedly in accordance with BUSTR guidelines. The UST Closure Report, dated October 6, 1995, indicated the analytical results for the samples collected were below the BUSTR Category 3 Action Levels.

At the time of the URS reconnaissance, the site was occupied by Stripmatic. The site is located at the southwest corner of Abbey Road and West 15th Street. A one-story concrete block building houses the operations, which reportedly are metal forming and fabricating. Mr. William Adler, the owner, was interviewed regarding the site. According to Mr. Adler, there are six hydraulic presses each having a one-gallon storage tank associated with the operations. The building currently has no ASTs or USTs. A heating oil UST was removed in 1994 and five other tanks were removed in 1999. No other evidence of use, management or storage of hazardous materials was noted during the site visit.

6.3 SITE #13 – FORMER GLOVE CLEANING/SCRANTON AVERELL

This site is addressed as 2132 through 2150 West 15th Street. According to the Cuyahoga County Auditor, this site is owned by Scranton- Averell, Inc. The site is further identified as Permanent Parcel Number 004-25-021.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Glove Cleaning Service Company in the 1954 through 1984 Directories. There were no further listings for the site.

The site was identified as LUST site in the EDR Report. According to the Cleveland Fire Prevention Bureau files, the site was occupied by the Glove Cleaning Service Company (2130), Eyre Glove Cleaners (2140) and Indu-Sol Products Inc. (2150) in 1941. An entry in 1947 indicates a 500-700-gallon AST of solvent was to be installed at the 2130 West 15th Street address. A Fire Inspection Report, dated August 1952, indicates there are four USTs located at the 2130 site; however, the

contents and quantities are not provided. A 3,000-gallon UST, which contained #4 fuel oil, was installed at the 2150 site in May 1951.

A Fire Inspection Report dated November 1969 indicates the site is occupied by multiple buildings, which house two businesses. The front occupant is listed a Frank & Zack Mold & Die. The rear occupant is listed as Glove Cleaning Service, which has three 500-gallon USTs; Stoddard solvent, dirty solvent and a dump tank.

A complaint was received at the Bureau on October 20, 1970; the Glove Cleaning Service Company reportedly was dumping Stoddard solvent in a vacant lot next to 2149 West 15th Street. The complaint also indicated the owner was dumping the solvent into the sewer system.

An entry dated March 1972 indicates the site is occupied by Majestic Welding, which conducts fabrication and welding of industrial machinery and plates. A report dated February 1981, indicates the site is occupied by the Glove Cleaning Service, which has three 500-gallon USTs. This report also indicates the site is occupied by Best Metal Finishing.

An application for UST removal was submitted on April 22, 1994. A 500-gallon UST, which contained dry cleaning fluid, was to be removed under the supervision of the Bureau. The UST reportedly was located north of the building. The UST was removed by Cuyahoga Landmark. An NFA letter, dated January 30, 1996, was received for the incident.

An application for UST removal was submitted on April 29, 1998. Two 4,000-gallon USTs, which contained heating oil, were to be removed under the supervision of the Bureau. The USTs reportedly were located to the west of the building. The USTs were removed by Cuyahoga Landmark. There was no further information regarding this closure in the file.

An application for UST removal was submitted; however, the date was not provided. One 500-gallon kerosene and two 1,000-gallon cleaning fluid USTs were to be removed. The associated permit was dated February 10, 1999. All three USTs reportedly were located north of the building. The USTs were removed by Cuyahoga Landmark.

According to the BUSTR files, in August 1998, two 1,000-gallon cleaning fluid USTs and one 550-gallon kerosene UST were removed from the property. In the most recent correspondence, BUSTR sent a letter dated November 2001 requesting a Closure Assessment Report. Reportedly, no further action has been taken by Scranton Averell, Inc. regarding this request.

According to the BUSTR files, a Closure Assessment for the removal of four 5,000-gallon USTs was submitted in October 2005. A Deficiency Letter was issued by BUSTR for the Closure on October 21, 2005. Scranton Averell indicated the USTs were not owned or operated by the company.

At the time of the URS reconnaissance, the site was occupied by TIG Products. A large concrete block building was observed in the central portion of the site. A gravel-covered area is located between this site and the adjacent Stripmatic site. Surface staining was observed on the site. No stressed vegetation and/or the storage or handling of hazardous materials was observed on the site. No one was available for interviews regarding the site.

6.4 SITE #14 – BOJACKS MEATS

This site is addressed as 1425 University Road and/or 2000 West 14th Street. According to the Cuyahoga County Auditor, this site is owned by Bojacks Meat and Poultry. The site is further identified as Permanent Parcel Number 004-27-003.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Paramount Fur Company in the 1954 through 1974 Directories. Beginning in 1979 through 1999, the site is listed as Bojacks Meat and Poultry.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by the J.R. Dyamond Terminal Warehouse in 1944. An entry in March 1952 indicates the site is occupied by the Paramount Fur Company, which utilizes mixtures of carbon tetrachloride and apco thinner to clean furs. A Fire Inspection Report dated November 1967 indicates the Cuyahoga Chemical Company stored multiple drums of sodium cyanide, potassium cyanide, zinc cyanide, and copper cyanide in the warehouse.

A permit dated November 1951 indicates a gas station is located at 2000-2180 West 14th Street. There reportedly are three 3,000-gallon USTs associated with this operation.

At the time of the URS reconnaissance, this site was occupied by two large warehouse buildings. While surface staining was not observed, distressed vegetation was observed on the site. No one was available for interviews regarding the site.

6.5 SITE #15 – LEON RUDNICK

The site is addressed as 1402-1408 Abbey Road. According to the Cuyahoga County Auditor, this site is owned by Leon Rudnick. The site is further identified as Permanent Parcel Number 004-27-004.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Baum Ice Cream in the 1954 through 1979 Directories. There were no further listings for the site.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by Baum Ice Cream Company in 1944. An entry dated June 1950 indicates a fuel oil UST was to be installed in the tree lawn. A Fire Inspection Report dated December 1965 indicates a 1,000-gallon fuel oil UST is located on the site.

A Fire Inspection Report dated February 1987 indicates the 1,000-gallon UST is to be abandoned in place. On February 12, 1987, the UST reportedly was filled with a slurry mixture and abandoned in place, under the supervision of the Fire Department.

At the time of the URS reconnaissance, the site was occupied by one warehouse building, which was divided into three units. No surface staining, stressed vegetation and/or the storage and handling of hazardous substances were observed. No one was available for interviews regarding the site.

6.6 SITE #16 – WENDELL & CAROLL COLLINS/1501 COMPANIES

The site is addressed as 2061-2183 West 15th Street. According to the Cuyahoga County Auditor, the site is owned by Wendell & Carroll Collins and 1501 Companies. The site is further identified as Permanent Parcel Numbers 004-08-006 and 004-27-005.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. There were no further listings for the site.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by Diamond Wheel Fabricating in 1999.

At the time of the URS reconnaissance, the site was occupied by a building and gravel-covered land. Surface staining was observed on the gravel-covered portion of the site. No one was available for interviews regarding the site.

6.7 SITE #17 – TERMINAL OIL

The site is addressed as 308 Central Viaduct. According to the Cuyahoga County Auditor, the site is owned by the Norfolk Western Railway Company. The site is further identified as Permanent Parcel Number 122-16-016A.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as O'Brien Cartage in the 1954 through 1989 Directories. The site is listed as Gillota Fuel Products in the 1994 and 1999 City Directories.

The site was identified as LUST site in the EDR Report. According to the Cleveland Fire Prevention Bureau files, the site was occupied by O'Brien Cartage in 1940. According to a permit dated October 18, 1955, a 2,000-gallon gasoline UST was installed at the site by the Oil Equipment Service Company. The 2,000-gallon UST reportedly was installed to replace a 1,000-gallon UST, which had leaked. A permit dated March 7, 1957 indicates approximately 6,000-gallons of gasoline are stored at the site in USTs. In 1966, the site was occupied by O'Brien and Nye Cartage Company. A permit dated September 27, 1974 indicates a 6,000-gallon fuel oil is to be installed at the site.

A letter dated September 28, 1993 from Tank Tech Environmental to the Fire Prevention Bureau indicates BUSTR recognizes Norfolk and Western Railway as the UST owner. The attached BUSTR registration form indicates there are two 6,000-gallon diesel USTs at the site. The operator of the steel USTs is listed as Gillota Fuel Products; however, the owner is listed Norfolk and Western Railway. A letter dated March 24, 1995 from BUSTR to Norfolk Southern indicates the UST Closure Report has been received and the extent of the release has been defined. The letter stipulates Norfolk Southern is required to submit a Remedial Action Plan to describe how the soil and/or groundwater at the site will be cleaned up.

At the time of the URS reconnaissance, the site was occupied by Terminal Oil. The site appeared to be utilized for the storage of tanker trucks. Several ASTs and multiple 55-gallon storage drums were observed on the site. Surface staining was observed. No one was available for interviews regarding the site.

6.8 SITE #18 – CLEVELAND FIRE STATION

This site is addressed as 310 Carnegie Avenue. According to the Cuyahoga County Auditor's Office, the site is owned by the City of Cleveland. The site is further identified as Permanent Parcel Numbers 122-16-017 and 122-16-018.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as City of Cleveland in the 1964 through 1999 Directories.

The site was identified as LUST site in the EDR Report. According to the Cleveland Fire Prevention Bureau files, the site was occupied by Fire Station #28 in 1963. According to a Fire Inspection Report dated June 13, 1963, a 1,500-gallon gasoline UST was located at the site.

A Report dated March 28, 1984 indicates the Fire Department Hazardous Materials Unit responded to a call regarding gasoline odors in the basement of the building. Approximately 25 gallons of gasoline were noted in the UST. A Report dated July 12, 1985 indicates gasoline odors were noted in the basement again. At this time, it was determined the 1,500-gallon UST should be removed from the ground, as well as an abandoned 2,000-gallon UST.

On September 16, 1965, a 550-gallon gasoline UST was installed. This UST reportedly was to be utilized for the emergency generator. A Report dated December 8, 1998 indicates gasoline odors were reported in the basement of the building. The odors were traced to a public sewer catch basin west of the building. Approximately 14 gallons of product/water were removed and disposed of.

A permit dated May 23, 2003 indicates a 250-gallon diesel UST was removed from the site. The UST reportedly was utilized in association with the emergency generator. According to the BUSTR files, a diesel UST was removed from the site in May 2003. The UST Closure Report was received in July 2003. A NFA Letter was issued for the closure on July 28, 2003.

At the time of the URS reconnaissance, the site was observed to be a City of Cleveland Fire Department Fire Station and Fire Museum. No surface staining, stressed vegetation and/or the storage and handling of hazardous substances were observed. No one was available for interviews regarding the site.

6.9 SITE #19 – GILLOTA FUEL PRODUCTS

The site is addressed as 206-300 Central Viaduct. According to the Cuyahoga County Auditor, the site is owned by Gillota Fuel Products Inc. The site is further identified as Permanent Parcel Numbers 122-16-021 and 122-16-020.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as various warehouses and a gas station in the 1954 through 1999 Directories.

The site was identified as LUST, RCRIS-SQG and UST site in the EDR Report. According to the Cleveland Fire Prevention Bureau files, the site was occupied by a furniture company (206) and a gas station (300) in 1950. A Permit dated February 1952 indicates a 1,000-gallon gasoline UST is located on the 206 property. A Permit dated August 1952 indicates there are approximately 13,600 gallons of gasoline stored on the 300 site in two USTs.

A Report dated August 18, 1964 indicates the 206 site is occupied by the Benson Warehouse. There is a 1,000-gallon gasoline UST located outside the northeast corner of the building. A report dated October 2, 1964 indicates the 300 site is a vacant service station. There reportedly were at least three USTs associated with the site, which had been vacant for approximately 1.5 years.

A Permit dated November 1984 indicates two 10,000-gallon USTs of #2 fuel oil and three 12,000-gallon USTs of #1 fuel oil are to be installed on the 300 site. According to the Permit, the USTs are located east of the existing building. A Tank Inventory for the 300 site, dated January 1, 1992, indicates there are 18 USTs containing various amounts of petroleum products.

A letter dated July 10, 1992 from Centerior Energy to Gillota Fuel indicates the adjacent CEI property has been impacted by petroleum products emanating from the 300 site. The letter concludes Gillota is expected to manage the regulatory implications. In September 1992, four USTs; two 1,500-gallon, one 12,000-gallon and one 20,000-gallon, were removed from the site. At this time four USTs were installed to replace the removed USTs.

A Permit, dated September 16, 1992, was filed to remove six USTs from the adjacent CEI property. The USTs were four 6,000-gallon used oil and two 8,000-gallon used oil. The Bureau reports associated with this removal indicated petroleum product was observed throughout the excavations. According to the BUSTR files, over-excavation of the soils associated with the USTs was conducted; approximately 5,666 tons of soil were removed. This incident attained NFA status on October 25, 1993; however, it was noted in the file the site had the potential to be re-contaminated by seepage water. The seepage water reportedly was emanating from a bridge abutment; the contaminants were thought to be associated with USTs operated on the adjacent property.

A Permit dated October 5, 1993 was issued for the removal of two 6,000-gallon USTs from the 300 site.

A Permit dated May 11, 1995 was issued for the removal of 3 12,000-gallon fuel oil, two 10,000-gallon gasoline and one 1,000-gallon fuel oil USTs from the 300 site. A Closure Report was written for the removal of the six USTs and submitted to BUSTR requesting No Further Action. NFA status was granted for the removal of the six USTs on October 3, 1995.

A Permit dated July 14, 2000 was issued for the installation of UST piping around two 8,000-gallon gasoline/diesel USTs, one 6,000-gallon gasoline UST and one 4,000-gallon kerosene UST. A Permit dated August 9, 2002 indicates there are two USTs located at the 300 site; one 8,000-gallon and one 6,000-gallon, which both contain gasoline. A Permit dated August 9, 2002 indicates there are four USTs; one 8,000-gallon and two 6,000-gallon, which contain diesel and one 4,000-gallon kerosene.

At the time of the URS reconnaissance, the site was a Marathon Gas Station and an empty warehouse. An underground storage tank cavity was observed on the gas station property. Surface staining and a petroleum odor were discerned on the gas station property, as well. No one was available for interviews regarding the site.

6.10 SITE #20 – EARL LEE

This site is addressed as 2394 Canal Road. According to the Cuyahoga County Auditor, this site is owned by Earl Lee. The site is further identified as Permanent Parcel Number 122-18-002.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Allis Chemical Company in the 1954 through 1979 Directories. The site was listed as W & W Meats in the 1984 through 1999 Directories.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by the Britton T & S Day Company in 1941. According to a Permit dated October 10, 1951, the site was occupied by Allis Chemical Inc., which stored flammable materials in an outside shed. In addition, there was a 1,000-gallon kerosene AST. A Permit dated July 17, 1957 indicates a 4,000-gallon gasoline UST was installed at the site, which was occupied by the Elnor Provision Company.

A BUSTR permit dated January 1989 indicates the 4,000-gallon UST is present. The site was occupied by W & W Meats Incorporated. A Permit dated March 16, 1990 was issued for the removal of the UST. According to the BUSTR files, a NFA Letter was issued for the closure on March 23, 1992.

At the time of the URS reconnaissance, the site was vacant. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.11 SITE #21 – WHITE PROPERTIES

The site is addressed as 1996 West Third Street. According to the Cuyahoga County Auditor, the site is owned by White Properties, LLC. The site is further identified as Permanent Parcel Number 122-18-019.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Whitman Jackson in the 1954 through 1984 Directories. There were no further listings for the site.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by Whitman and Jackson Company in 1941. A Permit dated November 27, 1953 indicates a 500-gallon UST with unknown contents was installed at the site. In addition, there were dip tanks at the site, associated with the wood treatment operations. A Permit dated November 28, 1955, indicates a 1,000-gallon UST of gasoline was installed at the site.

A Report dated August 10, 1965 indicates there is a 1,000-gallon gasoline UST, 900 1-gallon turpentine containers, 2,000 1-gallon liquid floor wax containers, and 250 gallons of spray paint in 8 oz cans stored at the site.

A Report dated March 25, 1983 indicates a 500-gallon steel UST was removed from the site. The UST was located near the northwest corner of the building. A letter was sent to the Mr. Andy Lakowitz of Global Reserve from the Bureau, indicating the USTs on the site had not been properly abandoned.

At the time of the reconnaissance, the site was a commercial warehouse. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. Multiple 55-gallon drums were observed on an adjacent property. No one was available for interviews regarding the site.

6.12 SITE #22 – NOVA PROPERTIES

This site is addressed as 1968-1097 West 4th Street. According to the Cuyahoga County Auditor, the site is owned by Nova Properties, Inc. The site is further identified as Permanent Parcel Number 122-20-012.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as the National Engineering Company in the 1954 through 1964 Directories. There were no further listings for the site.

This site was identified as an OHSPILLS site in the EDR Report. According to the Cleveland Fire Prevention Bureau files, the site was occupied by the National Engineering Company in July 1944. In October 1953, two 1,000-gallon USTs; gasoline and diesel, were installed at the site. In 1965, the site was owned by the New York Central Rail Road and the ANCO Corporation. The last entry in the file indicates the on-site building was razed in 1974; however, the USTs did not appear to have been properly abandoned.

At the time of the URS reconnaissance, the site was occupied by an asphalt plant, which is operated by Kenmore Construction. Large chunks of asphalt were observed in piles on the site. Surface staining was observed in multiple locations on the site. No one was available for interviews regarding the site.

6.13 SITE #23 – NS RAILROAD BUILDING

This site is addressed as 840 Minkon Lane. According to the Cuyahoga County Auditor, the site is owned by Norfolk & Western Railway Company. The site is further identified as Permanent Parcel Numbers 122-17-009 and 122-17-011.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. There were no listings for the site.

According to the Cleveland Fire Prevention Bureau files, the site is occupied by a storage building for the Rail Road. There reportedly is a 500-gallon gasoline UST on the site.

At the time of the URS reconnaissance, the site was occupied by a railroad storage building. Multiple piles of tires, roofing materials, lumber, and construction debris were observed on the site. Surface staining and oily sheens were observed on the ground. Drums, which were labeled to contain soil cuttings, were located on the site. No one was available for interviews regarding the site.

6.14 SITE #24 – JAMES VINCENT

This site is addressed as 2515 Canal Road. According to the Cuyahoga County Auditor, the site is owned by James C. Vincent. The site is further identified as Permanent Parcel Number 122-19-002.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as the Pump and Ice Company in the 1954 through 1999 Directories.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by the American Vinegar Company in 1941. In 1964, the site was occupied by the Pump & Ice Machine Company Inc.

At the time of the URS reconnaissance, the site was occupied by the Pump Ice Machine Company. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.15 SITE #27 – MERIDIAN PROPERTIES/INDEPENDENT TOWEL

This site is addressed as 1802 Central Avenue. According to the Cuyahoga County Auditor, the site is owned by the Ohio Department of Transportation. The site is further identified as Permanent Parcel Numbers 103-11-023, 103-11-024 and 103-26-003.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Independent Towel Company in the 1954 through 1994 Directories. The site was listed as Thrifty Car Rental in the 1999 Directory.

The site was identified as a LUST, RCRA-SQG and UST site in the EDR Report. According to the Cleveland Fire Prevention Bureau files, the site was occupied by the Independent Towel Supply Company in March 1940. A 10,000-gallon gasoline UST reportedly was installed at the site in October 1957. A Fire Inspection Report, dated September 26, 1972, indicated there was a 20,000-gallon gasoline UST located near the southeast corner of the building. A 12,000-gallon #2 fuel oil UST was installed at the site in April 1979.

A 10,000-gallon liquefied petroleum gas AST reportedly was installed at the site in August 1982. A 1,000-gallon propane AST reportedly was installed in June 1984.

A Permit was issued in March 1986 for a 10,000-gallon gasoline UST and a 55-gallon drum of motor oil. A report dated October 8, 1986 indicated a 12,000-gallon #2 fuel oil UST was improperly abandoned. On January 5, 1987, the aforementioned improperly abandoned UST was removed from the site, under the supervision of the Bureau.

A Permit was issued in March 1994 for the removal of 10,000-gallon gasoline UST. According to the BUSTR files, in March 1994 a 10,000-gallon gasoline UST was removed from the site. A Closure Report reportedly was not submitted to the agency. BUSTR requested information from Meridian Partners to complete the closure requirements; subsequently, BUSTR issued a "No Response Received" letter in November 2001.

At the time of the URS reconnaissance, the site was occupied by a Thrifty Car Rental and a four-story brick building. According to personnel at the Car Rental, Thrifty has operated at this portion of the site for approximately 10 years. The service area has been utilized to wash automobiles; no automobile maintenance is conducted on the site. The four-story building formerly was utilized by the Independent Towel Company; however, it reportedly has been vacant for approximately 10 years. A pad-mounted transformer was observed on the side of the building. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site.

6.16 SITE #57 – CHARLES MARTIN

This site is addressed as 3501 Croton Avenue. According to the Cuyahoga County Auditor, the site is owned by Croton Investments, LLC. The site is further identified as Permanent Parcel Number 122-15-046.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Lake Erie Metal in the 1954 through 1989 Directories. There were no further listings for the site.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by the Lake Erie Metal Company warehouse in May 1944. In October 1993, the site was occupied by MAX Pallet. The building was noted to be in disrepair.

At the time of the URS reconnaissance, the site was occupied by Impact Agency Inc. and Gregory & Flynn. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.17 SITE #58 – JF SANSON

The site is addressed as 3561 Burwell Avenue. According to the Cuyahoga County Auditor, the site is owned by JF Sanson & Sons Company. The site is further identified as Permanent Parcel Number 122-15-100.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. There were no listings for the site.

According to the Cleveland Fire Prevention Bureau, there are no files for this site.

At the time of the URS reconnaissance, the site was occupied by a wholesale seafood distribution company. Several 55-gallon drums were observed outside the building. In addition, surface staining was observed. No one was available for interviews regarding the site.

6.18 SITE #29 – BP GAS STATION

This site is addressed as 2701 Chester Avenue. According to the Cuyahoga County Auditor, the site is owned by George J. Sadd. The site is further identified as Permanent Parcel Number 102-34-025.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as a BP Gas Station in the 1984 through 1999 Directories.

This site is listed as a UST and RCRA-SQG site in the EDR Report. According to the Cleveland Fire Prevention Bureau, there are no files for this site. According to BUSTR, there are no files for this site, as it has not reported any releases.

At the time of the URS reconnaissance, the site was occupied by a BP retail gasoline station. A UST cavity was observed on the site. In addition, surface staining and oily sheens were observed on the pavement. No one was available for interviews regarding the site.

6.19 SITE #33 – STATE INDUSTRIAL PRODUCTS/INFORMATION SYSTEMS BUILDING

This site is addressed as 3100 Hamilton Avenue; however, it occupies buildings on the north and south sides of Hamilton Avenue. According to the Cuyahoga County Auditor, the site is owned by the Zucker Building Company. The site is further identified as Permanent Parcel Number 102-11-019 and 102-11-021.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as State Chemical Company in the 1964 through 1999 Directories.

This site was identified as an OHSPILLS, SSTS, UST, LUST, and RCRA-LQG site in the EDR Report. According to the Cleveland Fire Prevention Bureau files, the site was occupied by the H. Leff Electric Company and State Chemical in 1961. A Permit was issued in October 1961 for the installation of a 5' x 9.5' acid storage tank. A Permit was issued in June 1962 for the installation of a 550-gallon drain oil UST, which reportedly was removed in October 1972.

The Bureau issued a letter in March 1964, which indicated Leff Electric needed to properly abandon a UST located in front of the building. A Permit was issued in June 1965 for the installation of a 2,000-gallon gasoline UST, which reportedly was removed in October 1972. A Permit was issued in July 1967 for the installation of a 1,500-gallon Muriatic acid AST.

A violation notice was issued in July 1967 for the storage of the following substances; methanol, carbitol solvent, cellosolve solvent, isopropyl ether, mineral spirits, acetone, methyl-ethyl-ketone, naphtha, Muriatic acid, and propane.

A Permit was issued in the 1975 for the installation of six 8,000-gallon USTs. The USTs reportedly were to contain solvents. A BUSTR Permit for the USTs, dated 1989, indicates the USTs contained mineral spirits, 2-butylethanol and aliphatic blends.

Multiple permits were issued on April 15, 1986 for ASTs to be located inside and outside the building. The ASTs reportedly were to contain detergents, fatty acids, soap, water-based polymer, perchloroethylene, monoethanolamine, water-soluble resin, and hydrochloric acid.

Communications dated August and September 1992 indicate a UST located in the loading dock will be abandoned-in-place. Information in the file indicates the UST was located inside the building. According to the BUSTR files, an 8,000-gallon mineral spirits UST was abandoned in place. An NFA Letter, dated May 23, 1996, was issued by BUSTR for the incident.

In addition, five 8,120-gallon USTs were removed from the site in April 1997. The contents of the USTs were not known. The status of the closure is reported as 'Additional Information Requested'.

At the time of the URS reconnaissance, the site was occupied by State Industrial Products World Headquarters. It appears the facility packages cleaning products from bulk containers to individual packages. A UST cavity, which was labeled to contain solvents, was observed outside the building. The site appeared to be very well maintained. No one was available for interviews regarding the site.

6.20 SITE #34 – FORMER TELEDYNE METAL FINISHING

This site is addressed as 1725 East 27th Street. According to the Cuyahoga County Auditor, the site is owned by Teledyne Industries, Incorporated. The site is further identified as Permanent Parcel Number 102-34-015.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Metal Finishers in the 1954 through 1994 Directories. The site is listed as Teledyne Metal in the 1999 City Directory.

This site is identified as a RCRA-TSD and RCRA-LQG site in the EDR Report. According to the Cleveland Fire Prevention Bureau files, the site was occupied by Metal Finishers Incorporated in 1941. An entry dated January 1947 indicates a 4,000-gallon fuel oil UST was to be installed at the site; however, there was not enough room in the excavation for this capacity UST. An entry dated October 1950 indicates two fuel oil USTs were being installed at the site, without the oversight of the Bureau.

A Permit dated September 5, 1951 indicates a 5,000-gallon fuel oil UST was installed on the site. A note on the Permit indicates this UST was removed from the site in November 1985.

A Fire Inspection Report dated July 23, 1952 indicates the site is occupied by Metal Finishers Inc. There reportedly are two USTs on the site; a 4,000-gallon and a 1,000-gallon, both of which contain fuel oil. Plating operations, for all metals including silver, are conducted in the building. In addition, a 5,000-gallon fuel oil UST is located on the site, near East 30th Street.

A Fire Inspection Report dated March 3, 1966 indicates there are multiple ASTs and USTs located on the site. A 5,000-gallon fuel oil UST is located near Building #2. Two 4,000-gallon ASTs, containing sulfuric and hydrochloric acid, are not located in secondary containment. A 300-gallon gasoline UST with dispenser is located on the site. Various quantities of chromic acid, nitric acid, potassium cyanide, sodium hydroxide, potassium hydroxide, and hydrogen peroxide are stored in carboys. A degreasing tank, which contains trichloroethane, is located in the building.

A Fire Inspection Report dated March 8, 1971 indicates there are three USTs; a 300-gallon gasoline, a 1,000-gallon fuel oil and a 4,000-gallon fuel oil located on the site. In addition, there are two 3,000-gallon ASTs, which contain sulfuric acid and hydrochloric acid.

On September 25, 1986, the 300-gallon gasoline UST was abandoned in place. The UST reportedly was located in the building and could not be removed.

A Permit was issued on August 21, 1991 for the removal of two ASTs. The 6,000-gallon ASTs reportedly contained chromic acid and Muriatic acid.

At the time of the URS reconnaissance, the site was a vacant gravel lot, used for private parking. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.21 SITE #41 – 1400 EAST 30TH PARTNERS

This site is addressed as 1400 East 30th Street. According to the Cuyahoga County Auditor, the site is owned by 1400 East 30th Street Partners. The site is further identified as Permanent Parcel Number 102-17-012.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as various commercial tenants in the 1954 through 1999 Directories, including: Ohio Box Board, Aircraft Fitting, Linwood Realty, Cleveland Lithograph, and M & N Cigar Manufacturing.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by multiple tenants, including the Aircraft Fitting Company, Bedy Aluminum and Ohio Box Board in the early 1940s.

At the time of the URS reconnaissance, the site was occupied by a four-story brick building. The building primarily was occupied by offices, with a restaurant on the first floor. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.22 SITE #42 – CB REALTY

This site is addressed as 2975 Superior Avenue. According to the Cuyahoga County Auditor, the site is owned by C B Realty. The site is further identified as Permanent Parcel Number 102-17-013.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Armstrong in the 1954 through 1974 Directories. The site is listed as Bickoff's Carpet and Cuyahoga County in the 1979 through 1989 Directories. The site is listed as Ohio Carpet in the 1994 and 1999 Directories.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by the Armstrong Cord Company in 1954. An entry dated 1954 indicates three USTs, contents unknown, were removed the site. In approximately 1976, the site was occupied by Frank Bickoff's Carpet and various government offices.

At the time of the URS reconnaissance, the site was occupied by the Drape Factory and a carpet wholesaler. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.23 SITE #43 – KNC BUILDING

This site is addressed as 2635 Payne Avenue. According to the Cuyahoga County Auditor, the site is owned by the KNC Building Company. The site is further identified as Permanent Parcel Number 102-27-014.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as B.F. Goodrich in the 1964 through 1984 Directories. The site is listed as NTB in the 1989 through 1999 Directories.

According to the Cleveland Fire Prevention Bureau files, the site was constructed by B.F. Goodrich in 1963. At the time of the construction, a 5,000-gallon UST was encountered; however, the origin and content were not specified.

At the time of the URS reconnaissance, the site was occupied by George R. Klein News Company, which does business as CKM Ventures, LLC. Mr. Shawn Spindel of the company was available for information regarding the site. Reportedly, the site has been utilized for the distribution of magazines and newspapers since approximately 1999. Printing operations are not conducted on this site. Three overhead doors are located along the south side of the building. Remnants of hydraulic lifts and a UST were observed in this part of the building. Mr. Spindel indicated Muller Tire was the occupant of the building prior to 1999. Minor surface staining was observed in the building.

6.24 SITE #44 – EJ INVESTMENTS

This site is addressed as 2630 Payne Avenue. According to the Cuyahoga County Auditor, the site is owned by E & J Investments. The site is further identified as Permanent Parcel Number 102-34-036.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as various commercial tenants in the 1954 through 1994 Directories, including: Squibb Drugs, Turner Type, Atlas Print and Litho, Pretied Tie Co., Phillip Brush Company, and Superior Steel. There were no further listings for the site.

According to the Cleveland Fire Prevention Bureau files, this site was a multi-tenant building in the 1940s. Tenants included: Curtis Printing, Squib Drugs, Auger Printing, Turner Type Founders, and Atlas Print and Litho. A Fire Inspection Report dated February 14, 1972 indicates Pretied Tie Company, Quality Thread Company, Phillip Brush Company, and Superior Steel Stamp Company are tenants in the Graphic Arts Building.

At the time of the URS reconnaissance, the site was occupied by Ohio Wholesale Business Furniture. Mr. E. Baskin, the business owner, was available for information regarding the site. According to Mr. Baskin, the facility is used to display and store office furniture. No furniture painting or repairs are conducted on the site. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site.

6.25 SITE #45 – HAROLD MOSS, TRUSTEE

This site is addressed as 1748 East 27th Street. According to the Cuyahoga County Auditor, the site is owned by Harold S. Moses, Trustee. The site is further identified as Permanent Parcel Number 102-34-039.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Wheel and Rim Company in the 1954 through 1994 Directories. There were no further listings for the site.

The site is listed as an abandonment/dump site for drums in the EDR Report. According to the Cleveland Fire Prevention Bureau files, the site was occupied by the Musterole Company in 1940. An entry dated November 3, 1948 indicates the installation of a 10,000-gallon fuel oil UST was approved. A Fire Inspection Report dated December 5, 1966 indicates a gasoline UST has been ordered to be properly abandoned. A letter dated June 29, 1967 to the Bureau indicates two USTs were properly abandoned at the site.

A Fire Inspection Report dated October 8, 1970 indicates the site is occupied by the Wheel and Rim Sales Company, an automotive parts warehouse. A Permit dated January 24, 1975 indicates small quantities of lacquer; lacquer thinner, MEK, paint and enamels are stored on the site.

A Report dated February 5, 1992 indicates six 55-gallon drums were dumped on the site. The property owner, Mr. Steven Singer, indicated the drums and other debris were dumped on the site. Testing conducted on the drums indicated the contents likely were auto spray paints or enamels. On February 28, 1992, Bureau issued an order to Mr. Singer to properly remove the drums from the site.

At the time of the URS reconnaissance, the site was occupied by a vacant three-story warehouse. Three overhead doors and a loading dock were observed at the rear of the building. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.26 SITE #46 – TRI BUILDING

This site is addressed as 2728 Euclid Avenue. According to the Cuyahoga County Auditor, the site is owned by Tri Building Associates. The site is further identified as Permanent Parcel Number 103-05-012.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. There were no listings for the site.

According to the Cleveland Fire Prevention Bureau files, the on-site building was constructed in 1955 by the Euclid Avenue Company. The site appears to have been utilized as multi-tenant office building.

At the time of the URS reconnaissance, the site was a five-story multi-tenant office building. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.27 SITE #47 – GKC LIMITED

The site is addressed as 2729 Prospect Avenue. According to the Cuyahoga County Auditor, the site is owned by the GKC Limited Liability Company. The site is further identified as Permanent Parcel Number 103-05-026.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Horn and Morrison in the 1954 through 1984 Directories. The site is listed Collins and Gordon in the 1994 and 1999 Directories.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by Horn & Morrison Lithograph in 1940. By 1941, the site was occupied by National Yarn Corporation (2735), Continental Rubber Works (2731), Horn & Morrison Photo Lithographers (2729), and Lumberman Door and Frame Company (2729 rear).

At the time of the URS reconnaissance, the site was occupied by Collins, Gordon and Bostwick, an architectural firm, Kapp & Associates, a communications firm and Photo Lithographing. The majority of the building was unoccupied. Mr. Glenn Pizzuti, a Principle with Collins, Gordon and Bostwick, was interviewed regarding the site. According to Mr. Pizzuti, the site has been occupied by a multi-tenant building for at least sixty years. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site.

6.28 SITE #48 – PARKWOOD CORPORATION

The site is addressed as 2829 Euclid Avenue. According to the Cuyahoga County Auditor, the site is owned by the Parkwood Corporation. The site is further identified as Permanent Parcel Number 103-05-030.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as various offices in the 1954 through 1999 Directories.

According to the Cleveland Fire Prevention Bureau files, there is no history of regulated and/or hazardous substance handling, storage or use at the site.

At the time of the URS reconnaissance, the site was occupied by a two-story office building. The tenants were accounting and investment companies. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.29 SITE #49 – JULIUS SORMA

This site is addressed as 3004 St. Clair Avenue. According to the Cuyahoga County Auditor, the site is owned by Julius P. Sorma. The site is further identified as Permanent Parcel Number 102-18-001.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as various restaurants in the 1984 through 1999 Directories.

According to the Cleveland Fire Prevention Bureau files, the site has been occupied by Gi Gi Restaurant and subsequently, the Satin Doll Restaurant since approximately 1985. There is no history of regulated or hazardous substance handling, storage and/or use at the site.

At the time of the URS reconnaissance, the site was developed with a vacant building. The sign for the former operations, the Bada-Bing Club, was still hanging outside. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.30 SITE #50 – CLEVELAND MOUNTED POLICE

This site is addressed as 1150 East 38th Street. According to the Cuyahoga County Auditor, the site is owned by the City of Cleveland. The site is further identified as Permanent Parcel Number 103-22-154.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as the Cleveland Mounted Police Stables in the 1954 through 1999 Directories.

According to the Cleveland Fire Prevention Bureau files, the site has been occupied by the Cleveland Police Stables since approximately 1947. In November 1947, a 500-gallon fuel oil UST was installed at the site.

At the time of the URS reconnaissance, the site was utilized as the Mounted Police Stables. According to Officer James Berry, the stables have been located on the site for approximately 100 years. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site.

6.31 SITE #51 – TEMP CRAFT PLASTICS

This site is addressed as 3960 South Marginal Road. According to the Cuyahoga County Auditor, the site is owned by Lakeshore Realty. The site is further identified as Permanent Parcel Number 102-05-010.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as Tempcraft in the 1984 through 1999 Directories.

According to the Cleveland Fire Prevention Bureau files, the site has been occupied by Tempcraft Tool and Mold since July 1985. An entry dated March 10, 1986 indicates a 10,000-gallon UST has not been properly abandoned at the site. Permits dated 2003 indicate drums of xylenes, acetone, isopropyl alcohol, lubricating oils, paints, solvents and naphtha are stored at the site.

At the time of the URS reconnaissance, the site was occupied by Temp Craft Plastics. The operations reportedly consist of tool making and wax pattern finishing. ASTs and a hazardous waste storage building were observed outside the main building. No surface staining or stressed vegetation was observed on the site. No one was available for interviews regarding the site.

6.32 SITE #52 – ARCHITECTURAL REAL ESTATE

This site is addressed as 3000 Lakeside Avenue. According to the Cuyahoga County Auditor, the site is owned by Architectural Real Estate. The site is further identified as Permanent Parcel Number 102-12-010.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as General Sheet Steel in the 1954 through 1989 Directories. There were no further listings for this site.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by the General Sheet Steel Company in 1946. There is no history of regulated or hazardous substance handling, storage and/or use at the site.

At the time of the URS reconnaissance, the site was occupied by an office building. SFA Sports was located on the first floor. No surface staining, stressed vegetation and/or the handling and storage of hazardous materials were observed on the site. No one was available for interviews regarding the site.

6.33 SITE #53 – CLEVELAND FIRE ACADEMY

This site is addressed as 3101 Lakeside Avenue. According to the Cuyahoga County Auditor, the site is owned by the City of Cleveland. The site is further identified as Permanent Parcel Number 102-04-002.

The Cleveland City Directories for 1954 through 1999, in five-year intervals, were reviewed for information regarding the site. The site is listed as City of Cleveland in the 1964 through 1999 Directories.

According to the Cleveland Fire Prevention Bureau files, the site was occupied by the Cleveland Fire Academy in 1963. An entry dated September 20, 1963 indicates a 500-gallon gasoline AST and a 500-gallon gasoline UST are located on the site. An entry dated December 4, 1987 indicates the UST was removed from the site.

At the time of the URS reconnaissance, the site was occupied by the City of Cleveland Fire Training Academy. According to Lieutenant Quinn, there are USTs, which contain water, located on the site for training purposes. In addition, there are 55-gallon drums for training purposes on the site. Minor surface staining and oily sheens were observed on the site.

7.0 PHASE I ESA CONCLUSIONS

The Environmental Site Assessment Screening identified 33 sites in the Cleveland Innerbelt Project Area that warranted additional study in the form of a Phase I Environmental Site Assessment. Based on the findings of the Phase I ESAs, 21 sites have been identified that warrant additional investigation in the form of a Phase II Environmental Site Assessment. The following table summarizes the Phase II ESA sites and the rationale. A Phase II Environmental Site Assessment Work Plan, which will detail the proposed investigations for these sites, will be provided under separate cover.

Site Number	Site	Address	Rationale
2	Former Bauer Auto	3553 West 25th Street	LUST Site.
13	Former Glove Cleaning Service/Scranton Averell	2132-2150 West 15th Street	LUST Site.
14	Bojacks Meats	2000 W. 14th/ 1425 University	UST Site
16	Wendell & Carroll Collins/1501 Companies	West 15th Street	Property Take
17	Terminal Oil	308 Central Viaduct	LUST Site.
18	Cleveland Fire Station	310 Carnegie	LUST Site.
19	Gillota Fuel Products	206-300 Central Viaduct	LUST and UST Site.
21	White Properties	1996 West 3rd Street	Historic UST Site.
22	Nova Properties	West 4th Street	Historic UST and OHSPILLS Site.
23	NS Railroad Building	840 Minkon Lane	Active UST Site.
24	James Vincent	2515 Canal Road	Historic Operations
27	Meridian Properties/ Independent Towel	1802 Central Avenue	Historic UST and LUST Site.
29	BP Gas Station	2701 Chester Avenue	Active UST Site.
33	State Industrial Products	3100 Hamilton Avenue	OHSPILLS, LUST and UST Site.

Site Number	Site	Address	Rationale
34	Former Teledyne Metal Finishing	1725 East 27th Street	Historic UST and AST Site.
42	CB Realty	2975 Superior Avenue	Historic UST Site.
43	KNC Building	2635 Payne Avenue	Historic UST Site.
45	Harold Moss, Trustee	1748 East 27th Street	Historic UST and Dump Site.
50	Cleveland Mounted Police	1150 East 38th Street	Historic UST Site.
51	Temp Craft Plastics	3960 South Marginal Road	Historic UST Site.
53	Cleveland Fire Academy	3101 Lakeside Avenue	Historic UST and AST Site.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc. (EDR).

TARGET PROPERTY INFORMATION

ADDRESS

CLEVELAND, OH 44114
CLEVELAND, OH 44114

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records within the requested search area for the following databases:

FEDERAL ASTM STANDARD

NPL ---------- National Priority List
Proposed NPL ---------- Proposed National Priority List Sites

STATE ASTM STANDARD

SHWS ---------- This state does not maintain a SHWS list. See the Federal CERCLIS list and Federal NPL list.

FEDERAL ASTM SUPPLEMENTAL

ROD ---------- Records Of Decision
Delisted NPL ---------- National Priority List Deletions
MINES ---------- Mines Master Index File
NPL Liens ---------- Federal Superfund Liens
INDIAN RESERV ---------- Indian Reservations
US BROWNFIELDS ---------- A Listing of Brownfields Sites
DOD ---------- Department of Defense Sites
TSCA ---------- Toxic Substances Control Act

STATE OR LOCAL ASTM SUPPLEMENTAL

TOWNGAS ---------- DERR Towngas Database
HIST LF ---------- Old Solid Waste Landfill
ENG CONTROLS ---------- Sites with Engineering Controls

EDR PROPRIETARY HISTORICAL DATABASES

Coal Gas ---------- Former Manufactured Gas (Coal Gas) Sites

BROWNFIELDS DATABASES

US BROWNFIELDS ---------- A Listing of Brownfields Sites

EXECUTIVE SUMMARY

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

FEDERAL ASTM STANDARD

CERCLIS: The Comprehensive Environmental Response, Compensation and Liability Information System contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA).
CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the CERCLIS list, as provided by EDR, and dated 02/26/2004 has revealed that there are 10 CERCLIS sites within the searched area.

CERCLIS-NFRAP: As of February 1995. CERCLIS sites designated "No Further Remedial Action Planned" (NFRAP) have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund Action or NPL consideration. EPA has removed approximately 25,000 NFRAP sites to lift the unintended barriers to the redevelopment of these properties and has archived them as historical records so EPA does not needlessly repeat the investigations in the future. This policy change is part of the EPA's Brownfields Redevelopment Program to help cities, states, private investors and affected citizens to promote economic redevelopment of unproductive urban sites.

A review of the CERC-NFRAP list, as provided by EDR, and dated 02/26/2004 has revealed that there are 25 CERC-NFRAP sites within the searched area.

RCRIS: Resource Conservation and Recovery Information System. RCRIS includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs): generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs): generate between 100 kg and 1,000 kg of hazardous waste per month. Large quantity generators (LQGs): generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste from the generator off-site to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRIS-TSD list, as provided by EDR, and dated 03/09/2004 has revealed that there are 17 RCRIS-TSD sites within the searched area.

DERR: The DERR database is an index of sites for which Ohio EPA maintains files. It includes sites with known or suspected contamination, but a site's inclusion in the database does not mean that it is now or has ever been contaminated.

A review of the DERR list, as provided by EDR, and dated 03/22/2004 has revealed that there are 54 DERR sites within the searched area.

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 04/08/2004 has revealed that there are 258 FINDS sites within the searched area.

STATE OR LOCAL ASTM SUPPLEMENTAL

OH SHWS: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties.
Available information varies by state.

A review of the MSL list, as provided by EDR, and dated 03/01/1999 has revealed that there are 25 MSL sites within the searched area.

Site Description: The Master Metals Inc site is located on top of slag fill material that was reportedly deposited throughout the area during industrial development in the early 1900s. On site solid media exhibit significant lead contamination (up to 35,000 mg/kg) t o a depth of 3-4 feet. Perimeter solid media proximate to the facility fence exhibit surficial lead concentrations from 1,000 mg/kg - 36,000 mg/kg.

145 **CITY OF CLEVELAND FIRE STATION** **UST** **U000692600**
3765 PEARL RD **N/A**
CLEVELAND, OH 44109

UST:

Facility ID:	18000692	Tank ID:	T00001
Owner:	CITY OF CLEVELAND		
Owner Address:	4150 E 49TH ST CLEVELAND, OH 44125		
Capacity:	6000	Tank Status:	Currently In Use
Install Date:	05/01/85		
Content:	Gasoline		
Tank Type:	Fiberglass Reinforced Plastic		
Facility ID:	18000692	Tank ID:	T00002
Owner:	CITY OF CLEVELAND		
Owner Address:	4150 E 49TH ST CLEVELAND, OH 44125		
Capacity:	10000	Tank Status:	Currently In Use
Install Date:	05/01/85		
Content:	Diesel		
Tank Type:	Fiberglass Reinforced Plastic		
Facility ID:	18000692	Tank ID:	T00003
Owner:	CITY OF CLEVELAND		
Owner Address:	4150 E 49TH ST CLEVELAND, OH 44125		
Capacity:	550	Tank Status:	Currently In Use
Install Date:	05/01/85		
Content:	Diesel		
Tank Type:	Fiberglass Reinforced Plastic

Ownership Status: Other
Federal Facility: Not a Federal Facility
NPL Status: Not on the NPL

CERCLIS-NFRAP Assessment History:

Assessment:	DISCOVERY	Completed: 06/01/1980
Assessment:	PRELIMINARY ASSESSMENT	Completed: 09/06/1985
Assessment:	ARCHIVE SITE	Completed: 09/06/1985

CORRACTS Data:

EPA Id: OHD052937885
Region: 5
Area Name: ENTIRE FACILITY
Actual Date: / /
Corrective Action: CA150 - RFI Workplan Approved
2002 NAICS Title: 42269

EPA Id: OHD052937885
Region: 5
Area Name: ENTIRE FACILITY
Actual Date: / /
Corrective Action: CA200 - RFI Approved
2002 NAICS Title: 42269

EPA Id: OHD052937885
Region: 5
Area Name: ENTIRE FACILITY
Actual Date: / /
Corrective Action: CA400 - Date For Remedy Selection (CM Imposed)
2002 NAICS Title: 42269

EPA Id: OHD052937885

CHEMICAL SOLVENTS INC (Continued) **1000299268**

Region: 5
Area Name: ENTIRE FACILITY
Actual Date: 03/31/1992
Corrective Action: CA075LO - CA Prioritization, Facility or area was assigned a low corrective action priority
2002 NAICS Title: 42269

EPA Id: OHD052937885
Region: 5
Area Name: ENTIRE FACILITY
Actual Date: / /
Corrective Action: CA550 - Certification Of Remedy Completion Or Construction Completion
2002 NAICS Title: 42269

The CORRACTS database contains 3 additional records for this site.

RCRIS Corrective Action Summary:

Event: RFI Workplan Approved
Event Date: Not reported

Event: RFI Approved
Event Date: Not reported

Event: Date For Remedy Selection (CM Imposed)
Event Date: Not reported

Event: Certification Of Remedy Completion Or Construction Completion
Event Date: Not reported

Event: Igration of Contaminated Groundwater under Control, More information is needed to make a determination.
Event Date: Not reported

Event: Current Human Exposures under Control, More information is needed to make a determination.
Event Date: Not reported

Event: RFI Imposition, Focused data collection required for stabilization evaluation.
Event Date: 12/20/1996

Event: CA Prioritization, Facility or area was assigned a low corrective action priority.
Event Date: 03/31/1992

CORRACTS
CERC-NFRAP

CERCLIS-NFRAP Classification Data:
Site Incident Category: Not reported
Non NPL Code: NFRAP
Ownership Status: Other
Federal Facility: Not a Federal Facility
NPL Status: Not on the NPL

CERCLIS-NFRAP Assessment History:

Assessment:	PRELIMINARY ASSESSMENT	Completed: 09/06/1985
Assessment:	ARCHIVE SITE	Completed: 09/06/1985
Assessment:	DISCOVERY	Completed: 09/06/1985

CORRACTS Data:

EPA Id: OHD980897656
Region: 5
Area Name: ENTIRE FACILITY
Actual Date: 03/31/1992
Corrective Action: CA075LO - CA Prioritization, Facility or area was assigned a low corrective action priority
2002 NAICS Title: Hazardous Waste Treatment and Disposal

CHEMICAL SOLVENTS INC (Continued) **1000299269**

RCRIS Corrective Action Summary:
Event: CA Prioritization, Facility or area was assigned a low corrective action priority.
Event Date: 03/31/1992

RCRIS:
Owner: EDWARD PAVLISH
(216) 741-9310
EPA ID: OHD980897656

Contact: RONALD FORSTER
(216) 741-9310

Classification: Large Quantity Generator, TSDF
TSDF Activities: Used oil transfer facility, Used oil market burner

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Elapsed ASTM days: Provides confirmation that this EDR report meets or exceeds the 90-day updating requirement of the ASTM standard.

FEDERAL ASTM STANDARD RECORDS

NPL: National Priority List
Source: EPA
Telephone: N/A
National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 01/29/04
Date Made Active at EDR: 02/27/04
Database Release Frequency: Semi-Annually

Date of Data Arrival at EDR: 02/06/04

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System
Source: EPA
Telephone: 703-413-0223
CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/26/04
Date Made Active at EDR: 04/02/04
Database Release Frequency: Quarterly

Date of Data Arrival at EDR: 03/22/04
Elapsed ASTM days: 11
Date of Last EDR Contact: 03/22/04

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned
Source: EPA
Telephone: 703-413-0223
As of February 1995, CERCLIS sites designated "No Further Remedial Action Planned" (NFRAP) have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund action or NPL consideration. EPA has removed approximately 25,000 NFRAP sites to lift the unintended barriers to the redevelopment of these properties and has archived them as historical records so EPA does not needlessly repeat the investigations in the future. This policy change is part of the EPA's Brownfields Redevelopment Program to help cities, states, private investors and affected citizens to promote economic redevelopment of unproductive urban sites.

Date of Government Version: 02/26/04

CORRACTS: Corrective Action Report
Source: EPA
Telephone: 800-424-9346
CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 03/15/04
Date Made Active at EDR: 04/15/04
Database Release Frequency: Semi-Annually

Date of Data Arrival at EDR: 03/25/04
Elapsed ASTM days: 21
Date of Last EDR Contact: 03/08/04

RCRIS: Resource Conservation and Recovery Information System
Source: EPA
Telephone: 800-424-9346
Resource Conservation and Recovery Information System. RCRIS includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs): generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs): generate between 100 kg and 1,000 kg of hazardous waste per month. Large quantity generators (LQGs): generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator off-site to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 03/09/04
Date Made Active at EDR: 04/02/04
Database Release Frequency: Varies

FEDERAL ASTM SUPPLEMENTAL RECORDS

BRS: Biennial Reporting System
Source: EPA/NTIS
Telephone: 800-424-9346
The Biennial Reporting System is a national system administered by the EPA that collects data on the generation and management of hazardous waste. BRS captures detailed data from two groups: Large Quantity Generators (LQG) and Treatment, Storage, and Disposal Facilities.

Date of Government Version: 12/01/01
Database Release Frequency: Biennially

Date of Last EDR Contact: 03/16/04
Date of Next Scheduled EDR Contact: 06/14/04

CONSENT: Superfund (CERCLA) Consent Decrees
Source: EPA Regional Offices
Telephone: Varies
Major legal settlements that establish responsibility and standards for cleanup at NPL (Superfund) sites. Released periodically by United States District Courts after settlement by parties to litigation matters.

Date of Government Version: N/A
Database Release Frequency: Varies

Date of Last EDR Contact: N/A
Date of Next Scheduled EDR Contact: N/A

ROD: Records Of Decision
Source: EPA
Telephone: 703-416-0223
Record of Decision. ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

Date of Government Version: 01/09/04
Database Release Frequency: Annually
Date of Last EDR Contact: 04/05/04
Date of Next Scheduled EDR Contact: 07/05/04

DELISTED NPL: National Priority List Deletions
Source: EPA
Telephone: N/A
The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 01/29/04
Database Release Frequency: Quarterly
Date of Last EDR Contact: 02/06/04
Date of Next Scheduled EDR Contact: 05/01/04

FINDS: Facility Index System/Facility Identification Initiative Program Summary Report
Source: EPA
Telephone: N/A
Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

Date of Government Version: 04/08/04
Database Release Frequency: Quarterly
Date of Last EDR Contact: 04/05/04
Date of Next Scheduled EDR Contact: 07/05/04

HMIRS: Hazardous Materials Information Reporting System
Source: U.S. Department of Transportation
Telephone: 202-366-4555
Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT.

Date of Government Version: 12/18/03
Database Release Frequency: Annually
Date of Last EDR Contact: 04/20/04
Date of Next Scheduled EDR Contact: 07/19/04

MLTS: Material Licensing Tracking System
Source: Nuclear Regulatory Commission
Telephone: 301-415-7169
MLTS is maintained by the Nuclear Regulatory Commission and contains a list of approximately 8,100 sites which possess or use radioactive materials and which are subject to NRC licensing requirements. To maintain currency, EDR contacts the Agency on a quarterly basis.

Date of Government Version: 01/15/04
Database Release Frequency: Quarterly
Date of Last EDR Contact: 04/05/04
Date of Next Scheduled EDR Contact: 07/05/04

MINES: Mines Master Index File
Source: Department of Labor, Mine Safety and Health Administration
Telephone: 303-231-5959

Date of Government Version: 03/05/04
Database Release Frequency: Semi-Annually
Date of Last EDR Contact: 03/30/04
Date of Next Scheduled EDR Contact: 06/28/04

NPL LIENS: Federal Superfund Liens
Source: EPA
Telephone: 202-564-4267
Federal Superfund Liens. Under the authority granted the USEPA by the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner receives notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/91
Database Release Frequency: No Update Planned

Date of Last EDR Contact: 03/12/04
Date of Next Scheduled EDR Contact: 05/24/04

PADS: PCB Activity Database System
Source: EPA
Telephone: 202-564-3887
PCB Activity Database. PADS Identifies generators, transporters, commercial storers and/or brokers and disposers of PCB's who are required to notify the EPA of such activities.

Date of Government Version: 12/30/03
Database Release Frequency: Annually

Date of Last EDR Contact: 02/09/04
Date of Next Scheduled EDR Contact: 05/10/04

DOD: Department of Defense Sites
Source: USGS
Telephone: 703-692-8801
This data set consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

Date of Government Version: 10/01/03
Database Release Frequency: Semi-Annually

Date of Last EDR Contact: 02/02/04
Date of Next Scheduled EDR Contact: 05/10/04

STORMWATER: Storm Water General Permits
Source: Environmental Protection Agency
Telephone: 202 564-0746
A listing of all facilities with Storm Water General Permits.

Date of Government Version: N/A
Database Release Frequency: Quarterly

Date of Last EDR Contact: N/A
Date of Next Scheduled EDR Contact: N/A

INDIAN RESERV: Indian Reservations
Source: USGS
Telephone: 202-208-3710
This map layer portrays Indian administered lands of the United States that have any area equal to or greater than 640 acres.

Date of Government Version: 10/01/03
Database Release Frequency: Semi-Annually

Date of Last EDR Contact: 02/02/04
Date of Next Scheduled EDR Contact: 05/10/04

US BROWNFIELDS: A Listing of Brownfields Sites
Source: Environmental Protection Agency
Telephone: 202-566-2777
Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become BCRLF cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Date of Government Version: 07/15/03
Database Release Frequency: Semi-Annually

Date of Last EDR Contact: 03/15/04
Date of Next Scheduled EDR Contact: 06/14/04

RMP: Risk Management Plans
Source: Environmental Protection Agency
Telephone: 202-564-8600
When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: N/A
Database Release Frequency: N/A

Date of Last EDR Contact: N/A

FUDS: Formerly Used Defense Sites
Source: U.S. Army Corps of Engineers
Telephone: 202-528-4285
The listing includes locations of Formerly Used Defense Sites properties where the US Army Corps of Engineers is actively working or will take necessary cleanup actions.

Date of Government Version: 10/01/03
Database Release Frequency: Varies

Date of Last EDR Contact: 04/26/04
Date of Next Scheduled EDR Contact: 07/05/04

RAATS: RCRA Administrative Action Tracking System
Source: EPA
Telephone: 202-564-4104
RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/95
Database Release Frequency: No Update Planned

Date of Last EDR Contact: 03/08/04
Date of Next Scheduled EDR Contact: 06/07/04

TRIS: Toxic Chemical Release Inventory System
Source: EPA
Telephone: 202-566-0250
Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/01
Database Release Frequency: Annually

Date of Last EDR Contact: 03/23/04
Date of Next Scheduled EDR Contact: 06/21/04

TSCA: Toxic Substances Control Act
Source: EPA
Telephone: 202-260-5521
Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/02
Database Release Frequency: Every 4 Years

Date of Last EDR Contact: 03/05/04
Date of Next Scheduled EDR Contact: 06/07/04

FTTS INSP: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)
Source: EPA
Telephone: 202-564-2501

Date of Government Version: 01/21/04
Database Release Frequency: Quarterly

Date of Last EDR Contact: 03/22/04
Date of Next Scheduled EDR Contact: 06/21/04

SSTS: Section 7 Tracking Systems
Source: EPA
Telephone: 202-564-5008
Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 12/31/01
Database Release Frequency: Annually

Date of Last EDR Contact: 04/19/04
Date of Next Scheduled EDR Contact: 07/19/04

FTTS: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)
Source: EPA/Office of Prevention, Pesticides and Toxic Substances
Telephone: 202-564-2501
FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act). To maintain currency, EDR contacts the Agency on a quarterly basis.

Date of Government Version: 01/30/04
Database Release Frequency: Quarterly
Date of Last EDR Contact: 03/22/04
Date of Next Scheduled EDR Contact: 06/21/04

STATE OF OHIO ASTM STANDARD RECORDS

SHWS: This state does not maintain a SHWS list. See the Federal CERCLIS list and Federal NPL list.
Source: EPA
Telephone: 703-413-0223
State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data
Source: PennWell Corporation
Telephone: (800) 823-6277
This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Licensed Child Day Care Facilities
