Subject: 110412 FAI 37/256 PCL 001 EICHHORN LIMITED PARTNERSHIP Building Disposal

Morning Doug:

Just to confirm our telephone conversation with respect to Mr. Eichhorn's building removal. Fairfield County is agreeable to performing the removal of PCL 001 building prior to the project on a Right of Entry. Once confirm agreement with owner, proceed with scheduling the removal once Ben and I have completed Asbestos Inspection and EPA approval has been received, approximate time to schedule is late August or Early September 2020.

Ben, once Mr. Eichhorn consents, we can schedule our Asbestos Inspection in August once your schedule permits.

Doug Riffle, once have received owner agreement and get ROE signed can you confirm dates your team will be able to work this in your scheduling calendar.

Thanks everyone for entertaining this cost-effective way to remove the building with ODOT D5 personnel which also allows training for all involved and contain costs for this safety project in this challenging fiscal climate.

Best regards,

Kimber L. Heim
