**Attachments:** 20205200780.pdf; 20195036427 (1).pdf; 20186056400.pdf; 20176184062.pdf

JR & Julie,

From 2017 to 2020 (2020 crash data has not been finalized), there have been 4 crashes which appear to have occurred at/on 1175 Baltimore Somerset Road Northeast, Baltimore, OH:

- 1 EB fixed object in wet/rainy roadway conditions
- 1 EB distracted driving (phone-related) fixed object crash
- 1 WB fixed object crash involving wet roadway conditions and a sleeping/fatigued/fainted driver
- 1 fatal WB fixed object crash involving a 18 year old driver. Driver alcohol/drug testing unknown. Both occupant and driver were unbelted.

All were single vehicle crashes. I did not observe a particular trend. Speed may have been a factor in these crashes due to the flat terrain. We could review the area for drainage issues but GE streetview does not show anything visually irregular/concerning.

Hi Josh,

The house located on the far east portion of the 256/37 safety project has had several accidents in their front yard. They say there is a trend in how the accidents occur. Could you do a quick desktop review of this location? Is there any particular reason for cars running into their yard? Would it be possible to have this completed by noon on Wednesday?

Thanks Drew;

D5 would like to meet with you to discuss a high counter offer that we received. I am attaching Kimber's email to me that describes the facts (her handwritten notes are notes yet typed up). I am also including the plans (see pages 34-37, specifically page 34) for their property. Here is the address: 1175 Baltimore Somerset Road Northeast, Baltimore, OH which is near the intersection of SR256 and SR37. I told Kimber that a form RE-65 was not needed at this time but I am attaching a few background emails. Thanks for your assistance on this one.

JR
