Thanks Doug,

That was very quick Doug, Thanks! I note that the proposed GR is outside the permanent takes (in the T). We may need to either revise that or change the take to accommodate that. If owner likes it and that is the needed location; I can check with CO/AGO to see if any other 'agreements' can be made to lessen that need for more SH. Do we want to see about correcting this before Kimber meets or just wait to see what owner thinks of the GR first? Thanks everyone.

Please let me know if you have any questions, comments, or concerns. Thank you.

Respectfully,

Kimber,

Attached is a plan sheet showing the potential GR installation along SR 256 to protect the house located on parcel 20.
