**TO:** BEN BOYER, IN CARE OF THE OHIO DEPT. OF TRANSPORTATION  
**FROM:** MAYOR JERRY DAY *J.D.*  
**RE:** TAP FUNDING APPLICATIONS – FREDERICKTOWN SIDEWALK  
IMPROVEMENTS AND STATE ROUTE 95 BRIDGE IMPROVEMENTS  
(STATE ROUTE 13 OVERPASS)  
**DATE:** JANUARY 26, 2024

At the December 18, 2023 regularly scheduled meeting of the Fredericktown Village Council, Village Administrator Bruce Snell was given a directive from Council to complete Transportation Alternative Program Funding Applications for:

- Sidewalk Improvements, which entail extending sidewalk from the existing dead end of the sidewalk on State Route 95 to the existing dead end of the sidewalk on Bollinger Drive.
- Enhancements to the State Route 95 Bridge, which runs over State Route 13, within the Village of Fredericktown. ODOT has structural repairs scheduled for the said bridge in the near future and it is the Village's desire to enhance the aesthetics of the bridge at that time of construction.

The Village Administrator was informed by ODOT staff that legislation for these applications is not essential but we wanted to express that Village Council did direct the Village Administrator to pursue TAP Funding for both aforementioned public improvements. On behalf of Village Council, thank you in advance for your time and consideration of these two TAP Funding requests.
