Determination of Rent Supplement Payment

Description of Subject: 8895 Gaysport Hill Road, Blue Rock, OH 43720

The subject property is located at 8895 Gaysport Hill Road, Blue Rock, OH 43720. The subject is a one-story converted schoolhouse located in a rural residential area of Muskingum County, Ohio. The subject sits on 1.061 acres of land on a hill above Blue Rock/Gaysport, Ohio. Most of this property is heavily wooded with a steep ravine topography surrounding the house. This home sits on a hill and is accessed by a long, narrow drive. There is limited mowable, usable lawn. The project has a take area of 1.061 acres due to the instability of the hill the property sits on in Blue Rock. There is no garage for this home, though there is a carport in poor condition and barn that sits down in the ravine. This barn is not utilized by the tenant/occupants, but by a third party. The subject property has four rooms, one bath, which includes a Living Room, combination kitchen/dining room, one full bathroom, and 2 bedrooms. There also is a utility room, which is not included in the total room count, but which was considered in searching for comparables and another room utilized for storage. There is a room blocked off, which could be a bedroom, but it has a collapsed ceiling. It should be noted that the appraiser states there are four bedrooms—per my inspection, one is considered storage only and one is uninhabitable as noted above. The appraisal also states that there is baseboard heat, but upon inspection, the owner verified there is currently only heat by a wood pellet stove. There is no central air.

The property has 1296 sq ft of living space per auditor. There is a partial basement and part cellar, both areas considered unsafe. Due to the lack of utility of several rooms, and the inability to enter them to measure, the estimated habitable living space of this home is 918 (estimated). The property has a deck and carport. The basement is unfinished and considered uninhabitable to the instability of the foundation. The building was originally built in 1885 and used as a schoolhouse until decommissioned in 1950's and sold in late 1950 to be used as a residence. The heating by pellet stove, unknown condition of the well servicing the property and the septic system does not seem to be up to code. The property is in poor maintenance and is not decent, safe, and sanitary due to the condition of two of the upper rooms.

Subject property is unique in its initial constructed use as a schoolhouse has been altered through the years to add divided living space and bedrooms.

Determination of Prime Comparable

An exhaustive search has been on-going since June 2023. I have utilized ZILLOW, REDFIN, FACEBOOK Marketplace, Zanesville Rentals, and driven the area looking for Owner Rental signs. I have had discussions with the three local rental/property agencies in Muskingum County. My search was for the entirety of Muskingum County from Blue Rock to South Zanesville to Zanesville. I have visited six properties and determined that Comparable 1 is a suitable relocation location for Thomas and Hope. This property is deemed to be equal to or better than the subject property due to condition of the subject. Comparable 1 has air conditioning and a newer furnace, city water and sewer as compared to the subject property's pellet stove, well and septic.

Comparable 1 meets or exceeds all points of comparability which are noted on the RE 611 (T). Comparable is available and meets the necessary criteria and has been chosen as the Prime Comparable for determination of the Rent Supplement Payment.
