Project Name	Philo Connection
---------------------	------------------

Total Project Cost (Estimate)	130855
--------------------------------------	--------

Municipality Population (Most Current Figures)	724
---	-----

State Congressional District	12
-------------------------------------	----

County (or Counties) in which the Project is Located	Muskingum
---	-----------

Why did the Municipality prioritize this project over any other the Municipality may be considering?	The village has no pedestrian connection to the newly constructed bridge and to the shops/services and school across the river in Duncan Falls.
---	---

Indicate the SINGLE category for which the application is being submitted	Bicycle and Pedestrian
--	------------------------

Project Description

The Village of Philo is seeking to connect the village sidewalk network to the newly constructed bridge across the Muskingum River at the intersection of Bridge Street and Old River Road just north of the village. The project would begin at 1st Street and Front Street and terminate at the intersection of Bridge Street and Old River Road. The total length is approximately 860 linear feet.

Village residents currently use this unimproved pathway to access Duncan Falls (an unincorporated area in Wayne Township, Muskingum County, Ohio) immediately across the bridge. Duncan Falls is located along State Route 60 and has more abundant commercial services than the Village of Philo. The Franklin Local School campus is also located in Duncan Falls, and students have been reported using this pathway to access the campus.

Please attach a project estimated

For Bicycle/Pedestrian (Trails and Shared Use Paths) and Safe Routes for Non-Drivers (Sidewalks) Projects:

How many intersections are eliminated by this facility? 0

How many driveways are eliminated by this facility? 0

Is there an alternative route to the facility? No

Project - Check One Completes missing link on local facility.

Please Check One Off Road Bike/Ped Trail

Roadway speed Trial or Sidewalk parallels 35 MPH

Destinations that are easily accessible from, not simply near, proposed facility (check all that apply)

- Residences
- Schools
- Employers
- Stores
- Restaurants
- Parks
- Libraries

Indicate if the project is a part of an existing or proposed transportation or community development plan. This project is in alignment with the OMEGA long range transportation plan goals

Community Improvement Projects:

Environmental Mitigation Projects:

Recreational Trail Projects (These projects would allow Motorized users on the project)

Safety

Please describe any and all Safety benefits this project will bring to the community

This project will provide a safe, separated pathway for residents of Philo to access services, employment, and educational opportunities across the Muskingum River in Duncan Falls. Residents of all ages currently use the unimproved pathway along the road, but due to the incline from the village to the river, it often poses a challenge, especially to users with limited mobility. This project will fill a gap in the network between the Village of Philo and the newly constructed bridge across the river. Sidewalks are also present within Duncan Falls, further expanding the pedestrian network.

Miscellaneous:

Will Right of Way be needed to complete this project (MUST be on existing publicly-owned property).

All work will be done in the existing ROW

Please list all public involvement efforts.

The village of Philo has discussed this project at council meetings and other events to develop support.

How would you develop this project if you only received partial funding.

The project may have to be phased and additional funding sought to complete the project.

Identify Census Tract(s) This is a new requirement. I have prepared a Guidance document to explain how to get correct Tract Number(s).
