To Whom It May Concern,

I am writing to express my strong support for the proposed culvert repair on US-22 in the Village of Somerset, Ohio. I believe these enhancements, as well as the other current and proposed projects such as the Columbus Street Streetscape Improvements taking place will significantly benefit our community in a variety of ways. Deterioration of critical infrastructure such as this is just one of the issues facing the Village of Somerset, Ohio. By implementing the proposed improvements, such as repairing the structural integrity of the culverts, we can create a more functional and safer transportation network. The proposed improvements such as those listed will make our streets safer for residents and visitors to the community.

I urge you to consider this important project. Investing in our infrastructure demonstrates a commitment to creating a community that residents are proud of. These improvements will send a positive message about our collective values and aspirations, fostering a stronger sense of community pride and identity. The proposed culvert repair will have a positive impact on our community for years to come. I am confident that these enhancements will benefit everyone, making the Village of Somerset, Ohio, a safer place for all.

Sincerely,
