160	1	#N/A	Please see minor floodplain comments & questions on p. 4 & 49. Renee VanSickle, 5-29-2024.	rmvansickle			
161	58	#N/A	The required 3'-0" minimum horizontal separation is not being met here. It is evident that you are centering the maximum sized panel over the existing 12" water main in an attempt to provide as much horizontal separation that the current alignment can provide. However you are only providing approximately 9"-11" of horizontal clearance (out-to-out), which is not sufficient. Please revisit your current design and alignment to meet this separation requirement. Please verify & revise accordingly.	dahill			
162	1	Red		TLStewart
