Re: WAR-123-16.79, PID 122838; Stage 3 Review Comments

Mr. Schaffner,

ODOT District 8 has reviewed the Stage 3 submission for the above referenced project. All comments have been provided electronically in PDF format with the word "REVIEWED" added to the file name. The disposition of comments has been completed in PDF format using either Blue Beam or Adobe. Instructions below on how to respond and add your comments to the PDF have been followed per the instructions provided below.

Responding to Comments in Blue Beam

The comment summary table in Blue Beam will be used to respond to comments.

- If a comment has been complied with, toggle the checkmark box for that comment.
- If the comment requires a response or further explanation, write your comments in the disposition column for that comment. Your name or initials should be added after your comment to track who typed the response. Do not toggle the checkmark box for comments with dispositions.

The Stage 3 submission is approved by District 8, provided our comments are appropriately addressed prior to submission of Final Tracings. Per L&D, Vol. 3, Section 1406.4.3, please provide a formal written disposition to all of the Stage 3 comments with the submission of the Final Tracings plans. If you have any questions or comments please contact me by phone at 513-933-6583 or by email at Katherine.DeStefano@dot.ohio.gov.

Sincerely,

A handwritten signature in blue ink that reads "Katherine DeStefano".

Katherine DeStefano, P.E.
Senior Transportation Engineer

INTERIM CONSULTANT FEEDBACK

PID Number: 122838

Project Name: WAR-123-16.79

Consultant: Fishbeck

Consultant Project Manager: Jeremy Schaffner, P.E.

ODOT Project Manager (completing form): Katherine DeStefano

Review Submission: Stage 3

CONSULTANT EVALUATION

On a scale of 1 to 10 (low to high), ODOT is providing the following interim evaluation feedback. If you have any concerns with the feedback please contact the ODOT Project Manager.

Rating		Rate 1 to 10
1	Project Management	9
2	Adherence to Project Schedule	9
3	Adherence to Project Budget (Design, R/W, and Construction)	8
4	Quality of Work Product (Reports, Plans, etc.)	8
5	Responsiveness	9
6	Quality of Technical Performance	8

Comments:

A rating of 7 above indicates that district expectations have been met.
