Subject: Fort Washington Way Caps

Good morning Suzanne and team,

The County, in partnership with the City and Chamber, will be submitting a BUILD application for the Fort Washinton Way Caps project. The BUILD has a \$25M max grant, so the application will be for study/design of the whole project and construction of a Phase 1.

We will be requesting the ODOT letter of support soon, once receive some additional information from our consultant working on the application.

As was discussed in October, as the owner of the existing infrastructure, ODOT's support is critical.

We understand there are concerns ODOT has including ventilation, signage and long-term maintenance, and the project team is committed to working through those issues with ODOT as the study and design move forward.

We look forward to working with ODOT on this project. If you have any concerns that would like to discuss prior to our request for a letter of support, please contact me.

Thanks,

Bryan Williams, P.E.

Subject: Fort Washington Way Caps

You don't often get email from bryan.williams@cincinnati-oh.gov. [Learn why this is important](#)

Suzanne,

As I believe you are aware, the City, County and Chamber are seeking federal funding for capping Fort Washington Way (FWW). We recently had a debrief meeting with FHWA about our last application and plan to reapply when the next round of BUILD is announced. In an effort to strengthen our application/project, we feel it would be beneficial to meet with ODOT to discuss the project.

Would you and your team have any availability in early to mid-October to meet with City, County and Chamber representatives? We would like the meeting to be in person and are willing to travel to District 8.

Thanks,

Bryan Williams, P.E.
