Megan,

Good Afternoon!

Below are comments from Rich. Allen and I are looking into the ROW. We will provide our additional comments once we have a response.

Thanks!

Heather Hamilton

Allen,

Thanks for passing this along...Some comments to note:

- a) The new Vine St. roadway mill/fill line is within 25' from the centerline of track, and so from strictly a safety standpoint, an ODOT/NS Letter Agreement from my shop is recommended... MH response - noted
- b) If the proposed sidewalk at the NE corner (which I'm assuming will be concrete) is located as proposed, NS may take issue w/the end of the sidewalk being approx. 8' from centerline of track – they usually won't accept concrete this close to the track, but should be OK w/asphalt for ease of track maintenance equipment & replacement as needed. I'd also recommend bringing the 'End Mill and Fill Vine St.' roadway line across and have the new sidewalk match up w/that line... MH response - the limits of proposed concrete sidewalk match the limits of existing concrete walk and are outside the 8' measured from CL of track
- c) I don't have any comments on the 'Right-of-Way Needs' section of M&H's Designer Notes MH response - noted
- d) "Norfolk Southern" should be shown to ID the tracks somewhere on the plans MH response - will add for next submission
- e) "AARDOT #524743Y" should be shown at the centerline of Vine St. and the NS tracks MH response - will add for next submission

Once Stage 1 plans are completed and passed onto me, I will then forward a Letter Agreement to NS...

Katie/Suzanne: Unless advised otherwise, I'll proceed on the basis of a 1/31/25 ROW Clear date...

Thanks...

Richard Behrendt

Hey Rich

Need your input on this one. I think I mentioned it to you before but its been awhile. Lol

Things to note. Preemption project with redesigned pavement and curbing. We are concerned about Designer note 2.

Please advise.

Hi everyone,

Mead & Hunt is pleased to submit the Pre-Stage 1 Plan Package for your review and comment. The following items are included with this submission.

- Preliminary Design
- Truck Turning Movement Analyses
- Preliminary Drainage Report
- Preliminary Construction Cost Estimate
- Designer Notes

Our file transfer software is not working, so hoping the files are small enough to send via email. Please confirm receipt.

Thanks!
