

Ada S.R. 125 & S.R. 136

W.B. 900' of sight distance  
E.B. 2500' " " "  
N.B. 1700' " " "  
S.B. 1100' of sight distance also can see the  
flashing lights at ~~the~~ a  
distance of 2500'

observed Coca Cola truck making delivery to Panhandle the truck stopped in front of Panhandle limiting sight distance for South Approach 136 to West Approach 125 also fertilizer truck stopped while coca cola truck was there which limited sight distance even more.

talked to standard oil attend he said trucks making deliveries park in front of Panhandle and motorist can not see around them from south App. 136

I observed 5 cars, 4 Pick ups and 2 Big Trucks all in front of Panhandle at the same  
Parked Time.

Also observed motorist making what I call a rolling stop which means most of the vehicles do not come to a complete stop
