Senator Michael C. Shoemaker  
10989 Cropp St. Box 577  
Bournaville, OH 45617.

Dear Senator Shoemaker:

We have been told that a section of Route 93 from Jackson to Oak Hill has been put on the agenda for relocation and rebuilding. This section involves a very dangerous curve where there have been many, many accidents and many deaths. We realize that rebuilding highways is a long, arduous task, but we would certainly like to have this project have priority as much as possible.

Since, at best, it will be quite sometime before we see the completion of this section of highway, we would like to have some type of warning signals placed from both directions warning of the danger of this curve.

There have been far too many deaths, many of them close friends. We certainly do not want anymore if it can be prevented. Anything that can be done to improve the safety of this area will be greatly appreciated. Thanks for anything you can do.

Sincerely,

Robert W. Jones  
Robert W. Jones, Mayor

Martha Deety  
Martha Deety, Clerk-Treasurer
