

Recommended Improvements:

- 1) Upgrade Schuster Road to become State Route 220
- 2) Install traffic signal @ the new S.R. 32 & 220 intersection
- 3) Abandon existing S.R. 220 to the County Engineer (The existing intersection will be disconnected from S.R. 32)
- 4) Construct a left turn acceleration lane in the median for motorists turning left from Germany Road onto S.R. 32 (This will move the ingress onto S.R. 32 further from the railroad overpass)
