Gary:

We found our file (thanks to Patricia) and I went back in and looked at all the DSRT meeting minutes and the DSRT sign-off sheet to look at recommendations that have been made. I didn't find anything additional to the IOC you wrote last week. I am in agreement with the items of work you listed and I think the other DSRT members will be also. I think all the items you listed have been discussed at some point in time with the DSRT. Thank you for putting that together.

Also, I wanted to let you know there is a scope document in our file that someone has completed at some point in the past. Patricia knows where the file is kept in case you need anything else from the file.

Thanks,
Richard
