

JANUARY 2026 PROGRAMMATIC

D11 Proj.: BEL-7-23.61 PID 122458
BEL-7-24.97 PID 122451

**Department of
Transportation**

This presentation will provide an overview of the subject project that will be placed on the upcoming programmatic selection for consultant design services.

TWO PROJECTS – ONE DESIGN CONTRACT

- The consultant contract will include the design of two separate construction projects.
 - BEL-7-23.61 PID 122458
 - BEL-7-24.97 PID 122451
- They may be combined at plan file as a Part 1/Part 2 construction contract, however through Stage 3 the design and project management will be treated as if they are separate projects under one consultant contract.

2 | BEL-7-23.61 PID 122458 and BEL-7-24.97 PID 122451

Department of
Transportation

One consultant contract will be created to design both projects separately. The design, environmental clearances and any potential Right-of-Way will all be developed separately. Currently, ODOT does not expect to need additional Right-of-Way. The projects will be managed separately for the design, environmental and Right-of-Way timelines. After the Stage 3 review, the District will determine if the projects will be sold as one construction contract. If so, they would be combined as a Part 1/Part 2 contract that requires minimal re-work by the design consultant.

BEL-7-23.61 PID 121458

- Project Description:
PROTECT bridge BEL-7-2361
SFN 0700770 from scour.

3 | BEL-7-23.61 PID 122458 and BEL-7-24.97 PID 122451

Ohio Department of
Transportation

The project will include Scour Analysis and implementation of scour countermeasures and remediation to protect bridge BEL-7-2361 SFN 0700770.

AVAILABLE PROJECT INFORMATION

- Some project information is available at the following FTP site:
 - <https://ftp.dot.state.oh.us/pub/Districts/D11/122458>
 - The PIP will be released through SAFE on the programmatic scheduled date
 - D11 does not release the PIP early
 - All information on the FTP site is subject to change, please review the information in SAFE to create your LOI

4 | BEL-7-23.61 PID 122458 and BEL-7-24.97 PID 122451

Department of
Transportation

Additional project information is available on the District 11 ftp site, at the link shown on your screen. The Project Initiation Package document, along with a more complete and detailed scope of work will be released through The ODOT Scope and Fee System (or SAFE) at the request for LOIs. All information on the FTP site is subject to change. Ensure you review the ftp site and the information in SAFE before completing your LOI for this project.

PROJECT SCOPE

- The major items of work include:
 - Scour analysis and design of countermeasures
 - Maintenance of Traffic
 - Construction Access
 - ODOT will provide Survey and Soil Borings
 - Additional soil borings may or may not be necessary

5 | BEL-7-23.61 PID 122458 and BEL-7-24.97 PID 122451

Department of
Transportation

The major scope items are listed here. An updated and more complete list will be released in SAFE at the beginning of the LOI process.

CONSULTANT PREQUALIFICATIONS

- Non-Complex Roadway Design
- Various Geotechnical Services
- Bridge Design Level 2
- Bridge Inspection Level 1

6 | BEL-7-23.61 PID 122458 and BEL-7-24.97 PID 122451

Department of
Transportation

The consultant prequalification's required for this project are shown here.

Department of
Transportation

BEL-7-24.97 PID 121451

- Project Description: PROTECT bridge BEL-7-2497 SFN 0700797 from scour.
- Project will also reestablish the shoulders and foreslope of TR 469

9 | BEL-7-23.61 PID 122458 and BEL-7-24.97 PID 122451

Department of
Transportation

The project will include Scour Analysis and implementation of scour countermeasures and remediation to protect bridge BEL-7-24.97 SFN 0700797. The right-side embankment for TR 469 will be reestablished. Pavement work along TR 469 is anticipated to facilitate construction.

AVAILABLE PROJECT INFORMATION

- Some project information is available at the following FTP site:
 - <https://ftp.dot.state.oh.us/pub/Districts/D11/122451>
 - The PIP will be released through SAFE on the programmatic scheduled date
 - D11 does not release the PIP early
 - All information on the FTP site is subject to change, please review the information in SAFE to create your LOI

10 | BEL-7-23.61 PID 122458 and BEL-7-24.97 PID 122451

Department of
Transportation

Additional project information is available on the District 11 ftp site, at the link shown on your screen. The Project Initiation Package document, along with a more complete and detailed scope of work will be released through The ODOT Scope and Fee System (or SAFE) at the request for LOIs. All information on the FTP site is subject to change. Ensure you review the ftp site and the information in SAFE before completing your LOI for this project.

PROJECT SCOPE

- The major items of work include:
 - Scour analysis and design of countermeasures
 - Maintenance of Traffic
 - Construction Access
 - Reestablish roadway embankment for TR 469.
 - Pavement replacement may be required
 - ODOT will provide Survey and Soil Borings
 - Additional soil borings may or may not be necessary
