JAN 2027 PROGRAMMATIC

D11 Proj.: TUS-250-12.32 PID 125042

Ohio Department of Transportation

This presentation will provide an overview of the subject project that will be placed on the upcoming programmatic selection for consultant design services.

TUS-250-12.32 PID 125042

- Proj. Description: Rehabilitate or replace bridge TUS-250-12.320R (SFN: 7904835) carrying U.S. 250 Eastbound over I.R. 77, *Stone Creek,* and Ramp E.

Department of Transportation

- The project will rehabilitate or replace bridge TUS-250-12.320R (SFN: 7904835) carrying U.S. 250 Eastbound over I.R. 77, *Stone Creek,* and Ramp E.

AVAILABLE PROJECT INFORMATION

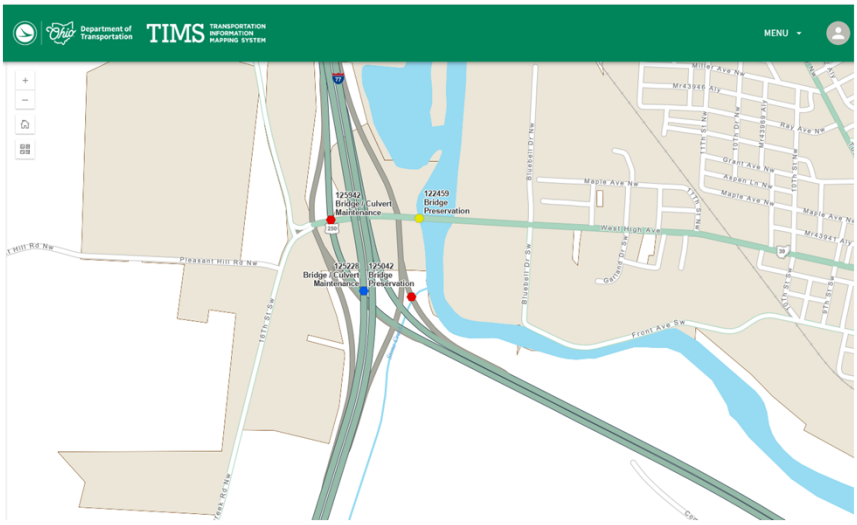

- Some project information is available at the following FTP site:
  - ftp.dot.state.oh.us - /pub/Districts/D11/125042/
  - The PIP will be released through SAFE on the programmatic scheduled date
  - D11 does not release the PIP early
  - All information on the FTP site is subject to change, please review the information in SAFE to create your LOI

Ohio Department of Transportation

Additional project information is available on the District 11 ftp site, at the link shown on your screen. The Project Initiation Package document, along with a more complete and detailed scope of work will be released through The ODOT Scope and Fee System (or SAFE) at the request for LOIs. All information on the FTP site is subject to change. Ensure you review the ftp site and the information in SAFE before completing your LOI for this project.

TIMS MAPPING

Department of Transportation

Here is an image showing the anticipated project limits from ODOT's TIMS application. The project will follow the existing horizontal and vertical alignments as much as practical.

PROJECT SCOPE

- The major items of work include:
  - Determine if bridge needs replaced or if rehabilitation is more prudent.
  - Perform STS to determine if rehabilitate option can be used.
  - Rehabilitation Option must include the following (at a minimum)
    - Replace the deck and superstructure.
    - Eliminate hinges from new design.
    - Replace the bearings.
    - Repair the substructure units.
    - Ensure minimum V.C. is 16’-6” after construction.
  - Utilize phased construction for Maintenance of Traffic.

Department of Transportation

The major scope items are listed here. An updated and more complete list will be released in SAFE at the beginning of the LOI process.

CONSULTANT PREQUALIFICATIONS

- Level 1 bridge inspection
- Level 1 & 2 bridge design
- Non-complex roadway design
- Various Geotechnical Services
  - Geotechnical Engineering Services
  - Geotech Testing Laboratory
  - Geotechnical Field Exploration
  - Geotechnical Drilling Inspection

Department of Transportation

The consultant prequalifications required for this project are shown here.

FIELD PHOTOS
