JANUARY 2027 PROGRAMMATIC

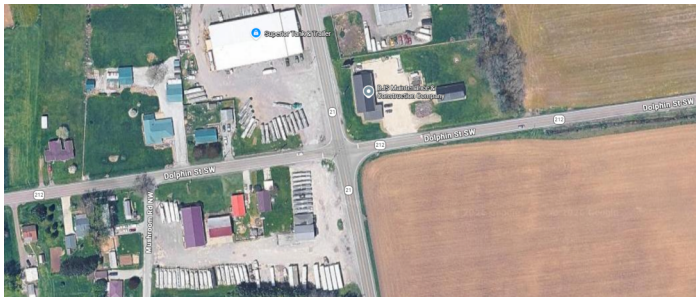

D11 Proj.: TUS-21-1.47 PID 126264

Ohio Department of Transportation

This presentation will provide an overview of the subject project that will be placed on the upcoming programmatic selection for consultant design services.

TUS-21-1.47 PID 126264

- Project Description: Construct a single-lane roundabout at the intersection of SR 21 and SR 212 to improve safety.

Department of Transportation

The project will improve safety by constructing a new single-lane roundabout at the intersection of SR 21 and SR 212 at the border of Tuscarawas County and Stark County. The project is located at SLM TUS-21-1.47/STA-21-0.00.

AVAILABLE PROJECT INFORMATION

- Some project information is available at the following FTP site:
  - https://ftp.dot.state.oh.us/pub/Districts/D11/126264
  - The PIP will be released through SAFE on the programmatic scheduled date
  - D11 does not release the PIP early
  - All information on the FTP site is subject to change, please review the information in SAFE to create your LOI

Department of Transportation

Additional project information is available on the District 11 ftp site, at the link shown on your screen. The Project Initiation Package document, along with a more complete and detailed scope of work will be released through The ODOT Scope and Fee System (or SAFE) at the request for LOIs. All information on the FTP site is subject to change. Ensure you review the ftp site and the information in SAFE before completing your LOI for this project.

TIMS MAPPING

Here is an image showing the anticipated project limits from ODOT's TIMS application.

PROJECT SCOPE

- The major items of work include:
  - Replace the stop-controlled intersection with overhead flashing beacon to a modern single-lane roundabout
  - Replace existing drainage facilities within the vicinity of the intersection, including the 72” culvert just east of the intersection along SR 212
    - A combination of new ditches and enclosed storm sewers is anticipated
  - Install new highway lighting
  - Traffic will be detoured during construction
  - Utility relocation is anticipated
  - New permanent right-of-way is anticipated
  - Access management for the businesses adjacent to the intersection

Department of Transportation

The major scope items are listed here. An updated and more complete list will be released in SAFE at the beginning of the LOI process.

CONSULTANT PREQUALIFICATIONS

- Non-Complex Roadway Design
- Limited Lighting Design
- Various Environmental Services
- Various Geotechnical Services
- Subsurface Utility Location Services
- Limited ROW Plan Development

The consultant prequalification's required for this project are shown here.

FIELD PHOTOS
