Subject Re: Fw: PID 85150 - Railroad Agreement(2)

Always appreciative Richard. D12 encumbered \$8000 in October for CSX PE Review per your recommendation (see 10/21/10 below).

John,

Sorry...I didn't have my last email in the file that I had forwarded on 10/22, and as I was doing a normal file check, didn't realize that I had committed to moving forward...

As is past protocol, you will need to encumber some dollars to cover CSX/URS review of this project - I would recommend \$5000 be encumbered for this task.

Let me know when this encumbrance has been acquired - In the meantime, I'll work up the Letter Agreement and submit for signature.

Beyond that, no other information is needed at this time

Rich Behrendt

Richard, according to your last email, you were moving forward with the letter agreement and signature.

See attachment.

What happened and what do you require?

John/Shelley,

I don't have any record of a response back on the trailing email sent last month...

Time is drawing near if this is intended to file in March, and w/o any drawings or response, we may not have a signed Letter Agreement from CSX, as they normally take anywhere from 45-90 days+ to process Letter Agreements.

Subject Re: Fw: PID 85150 - Railroad Agreement 

John,

So I'm clear on your request: please verify my understanding of the following - see attached:

- a) Project is CUY-480-10.54/VAR Bridge Painting - (the rail line involved is CSX, not NS)
- b) At least one location (CSX bridge over IR480) with possible inclusion of the SR94/State St. bridge over CSX

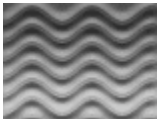

Since we can handle this w/a Letter Agreement, no Engineering Agreement is necessary, but I would recommend that \$8000 be encumbered to cover CSX's review and consultant time needed for this project. According to ELLIS, this project is scheduled to file in March of 2011, with a sale date in 2014...

Once I hear back from you that this amount has been encumbered, I will put the Letter Agreement together for movement out to CSX...

Let me know...

Richard, the subject job requires a railroad agreement for the structure shown below and may require inclusion of a second location (SR94 over I-480 and Norfolk Southern). I will review the second location and send you an update as soon as possible. The SR94 grade separation is about 1 mile west of the Broadview Rd crossing.

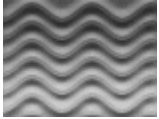

1. Preliminary Engineering for all other railroads (Maintenance jobs)

a. Definition of scope.

Painting Structural Steel

b. Provide basic information (location maps, description of work, specifics of work areas).

Painting Structural Steel (fully contained blasting and painting per our specs.) [attachment "Broadview Rd. over I-480.gif" deleted by Richard Behrendt/RealEstate/CEN/ODOT]
