Subject Re: CUY-480-10.54/VAR, PID 85150, CSX OP #OH0821 - URS outstanding comments?

Project duration was utilized to determine flagging days. No further information required from ODOT. Agreement package was forwarded to JAX for signature (see attachment). I have not yet received the fully executed agreement.

Richard, Larry:

In answering the questions on the review by URS, I sent the determination of access to CSX right of way and the estimated work duration.

I can forward the flagging question to D12's Construction Railroad Coordinator, Ms. Lucille Micatrotto.

Larry, do you require an answer to the flagging days prior to issuance of the signed agreement?

comments? [Link](#)

John,  
In going through my file on this, did you ever get back to Larry on the anticipated number of days needed for flagging on this project as per my trailing email from 8/3?

Larry,  
Is there anything else you need from us on this? Can you advise what your best guess would be on return of the signed Agreement?

Let me know...

Thanks...

John,

I remember seeing an email from you to Larry Shaw responding to his inquiry to his 6/8/11 letter to you (attached) about whether there was a need for ground level access for this project (which if I remember correctly you indicated that no access was needed(?)) - Did you also respond to the number of days of work were anticipated, so that he can put together an FAE for the project?

Let me know...

Thanks...
