Subject: Potential Addendum for Old Rockside

George,

We're looking into an addendum for Old Rockside to do a few things:

1. Increase field office from 20 to 22 months and extend the completion date to 03/31/2024.
2. Change the temporary pavement pay items in the MOT section and call out Pavement for Maintaining Traffic, Type A, As Per Plan and Roads for Maintaining Traffic instead of Ref. Nos. 176, 187-189 and 191-192. This will allow contractors to use either flexible or rigid pavement, making the schedule more flexible so they can pave in the winter, if necessary. This will also require some plan sheet changes in addition to the unit price bid sheets.
3. Updating some stump removal quantities to tree removal quantities, as we will not be taking some trees down before April 1, and updating plan sheets to reflect.
4. Updating the 4A note to indicate that AT&T will not be clear until October 1, 2022.

We do not anticipate changing the project estimate for these changes. There will also be some clarifications and answers to pre-bid questions that will go out with the addendum, but those aren't materially changing the project.

Please let me know if you are available to discuss these proposed changes by phone and I can explain the rationale.

Thanks.

Byron D. Sah, P.E.
