RE: Permit Action Items

The permits noted below will need to be resubmitted to the appropriate agencies for approval prior to starting the associated construction.

Aeronautical Study No. 2011-AGL-7796-OE

For the use of temporary traffic signals required during MOT operations at the SR 335 / TR 234 intersection
Determination of no hazard to air navigation for temporary structure

Approved by Kathie Curran, FAA Specialist

Approved November 29, 2011

Determination expired May 29, 2013

This information is incorporated into the Phase 1 plans with the following general note:

“Contractor shall refer to aeronautical study numbers listed above for conditions that need to be met in addition to determination expiration dates and instructions for extension requests.”

Aeronautical Study No. 2011-AGL-8018-OE

For the use of a 100' tall crane required to construct the TR 234 Bridge over the CSXT Railroad

Determination of no hazard to air navigation for temporary structure

Approved by Edward Dorsett, FAA Specialist

Approved December 22, 2011

Determination expired December 22, 2012

This information is incorporated into the Phase 1 plans with the following general note:

“Contractor shall refer to aeronautical study numbers listed above for conditions that need to be met in addition to determination expiration dates and instructions for extension requests.”

Ohio EPA Permit to Install

For the installation of the gravity sewer as part of the Sunshine Church Sanitary Sewer Extension

Application No. 837881

Approved by Scott Nally, Ohio Environmental Protection Agency Director

Issues/Effective December 7, 2011

Permit expires 18 months from effective date (June 7, 2013)

This information is incorporated into the Phase 1 plans with the following sanitary sewer note:

“The proposed wastewater disposal system shall be constructed in strict accordance with the plans and application approved by the director of the Ohio Environmental Protection Agency. There shall be no deviation from these plans without the prior express, written approval of the agency. The permit will expire if construction has not been initiated by the applicant within eighteen months of the effective date (December 7, 2011). Contractor shall apply for a new permit to install if construction has not been initiated by the permit expiration date.”

Floodplain Development Permit – Scioto County, Ohio

For the installation of a new bridge at 9353 State Route 139, Minford, Ohio in Harrison Twp.

Permit # 2012-03

Approved by Kendra Hobson, Scioto County Floodplain Administrator

Approved February 13, 2012

Permit expired 180 days from date of issuance (August, 2012)

This information is not incorporated into the Phase 1 plans
