

GENERAL INFORMATION

Project C-R-S / Name:	ALL-Cleveland Street Bridge	PID:	119699	District:	01
Brief Project Description:	<p>The village of Delphos, in partnership with the Ohio Department of Transportation, is proposing to replace the structurally deficient bridge carrying Cleveland Street over Flat Fork Creek in the village of Delphos. The project also includes 0.5 miles of roadway widening on Cleveland Street and sidewalk on the north and south sides of the road. See mapping in project file for location information.</p> <p>No right-of-way will be required for the project, but deep excavation will occur to a depth of 8-9 ft to replace the drainage material behind the bridge abutments. See Stage 1 Design in the project file for more information.</p> <p>Utility impacts, if any, will be coordinated with the village of Delphos prior to construction. Temporary roadway closures are anticipated during construction and traffic will be temporarily detoured. Access to all local properties will be maintained.</p> <p>Construction is scheduled to occur in the summer of 2026.</p>
