Re: BUT-129-9.09/9.20
PID 105221

November 16, 2023

Dear Neighbor:

The Ohio Department of Transportation is proceeding with environmental analysis and engineering design for project BUT-129-9.09/9.20. This project will rehabilitate two bridges on State Route 129 in the Village of Millville; one over Beals Run and another over a tributary of Beals Run.

We are writing to advise you that it may be necessary for personnel from Carpenter Marty Transportation, Inc. to enter upon your property within the next 2-3 weeks to obtain specific field data needed in connection with the proposed project. Sections 5517.01 and 163.03 of the Ohio Revised Code authorize such entries but also require that reimbursement be made for any actual damage resulting from such work. It is not anticipated that any physical sampling or vegetation clearing will be required; however, if any valuable vegetation must be cleared to accomplish the work needed, you will be notified and informed as to the procedure to follow in preparing a claim for reimbursement. If at any time you feel that our representatives have not given proper attention to your property, please notify me.

Ohio Department of Transportation District 8 Office
Attention: Keith Smith, P.E., District Environmental Coordinator
505 South State Route 741
Lebanon, OH 45036-9518
Telephone Number: 1-800-831-2142
E-mail: keith.smith@dot.ohio.gov

Please note that personnel from Carpenter Marty Transportation will not be able to give any information or answers to your questions. The staff will simply be collecting data to complete the environmental analysis and engineering design. After these studies have been completed, a more detailed project notification letter will be sent out with more information and further solicit public input. We sincerely appreciate your cooperation and assistance so that this worthwhile project can be completed as soon as possible.

If you have any comments, concerns, or questions, please feel free to contact me at the information below.
