GlobalAir.com receives its data from NOAA, NWS, FAA and NACO and strives to maintain current and accurate data. However, GlobalAir.com cannot guarantee the data received from these government sources is accurate or complete. As a result, you should not rely solely on the data available on this site in planning any flight. You should always become familiar with all available information concerning your intended flight and have in your possession all current, appropriate charts, as required by the Federal Aviation Regulations. Prior to each flight, you should always obtain an official (FSS, Leidos Flight Service etc.) current flight briefing including weather and NOTAMs for your intended flight. Please report any errors you might find, [here's how](#).
