All facilities installed by the Company will be and remain property of the Company. The Company expressly retains the right to use said lines and equipment for any purpose which Company deems advisable, including the distribution of electric service to other customers. However, if the electric distribution facilities installed as a result of this contract are subsequently used by the Company within fifty (50) months of installation to serve additional customers, the Customer may be entitled a refund of a portion of the Contribution-In-Aid-Of-Construction paid for Basic Service. It is the Customer's responsibility to initiate a request for refund in such instances and the Customer can contact the Company at any time to investigate their eligibility for a refund as development proceeds in their local area.

It is understood and agreed that the Company will not begin facilities construction until all Contribution-In-Aid-Of-Construction costs for Basic and Premium Services outlined above are received by the Company.

It is understood and agreed that this contract, and particularly the amounts of the Contribution-In-Aid-Of-Construction, are based on the specifics of the Customer's request for distribution electric facilities.

Other parties may have lines and/or equipment that utilize the Company's poles or other facilities. The Company is not responsible for the installation, relocation or removal of lines and/or equipment owned by such parties at this location. Each party is responsible for its own equipment and the time it takes to install, remove or relocate it. Any fees charged, or costs incurred, by other parties are the responsibility of the Customer, not the Company. The Customer is responsible for contacting the other parties, identified by the Company, and making arrangements with those other parties for any work that must be done to facilitate this contract.

If the Customer's request for facilities is altered or the Customer requests a delay or otherwise does not take service within six (6) months of execution of this contract, the Company reserves the right to adjust the amount of the Contribution-In-Aid-Of-Construction and other fees to reflect either the alteration in requested facilities or the delay in service, or both. Other contract terms associated with the Company's line extension policies and 'Plan of Service' may also be revised.

If the Customer does not initiate service within six (6) months of the completion of the Company's work, the Customer will be responsible for paying any portion of the Company's cost which was not covered by the upfront Contribution-In-Aid-Of-Construction.

Nothing herein contained shall be construed as a waiver or relinquishment by Company of any right it has or may hereafter have to discontinue service for or on account of default in the payment of any bill owing or to become owing or for any reason or cause stated in the Company's Tariff.

The quoted price will be valid for ninety (90) days from the date identified above.

By signing and returning this Agreement, Customer agrees to accept the above described terms and conditions.
