The contractor has our permission to do whatever work is necessary within our right of way, there will be no issues on our part.

Thanks
Tyrel Samples
Union Township Trustee

Dear Trustee,

We have a project that will be replacing guardrail along US 62 next year. As part of that project, we plan on replacing the guardrail that is located at the Union Township garage that was previously the ODOT Millwood Outpost. To replace the entire runs, we will have to work inside of the township right-of-way. I wanted to make sure that will not be an issue. I spoke with Jennifer Samples and she did not think it would be but we need something in writing

to save with our records. If you could please respond to this email stating that the contractor can do the work on the township right-of-way that would be much [appreciated](#). Please call or email if you have any questions.

Thank You,

Chris Yount, P.E.
