VAR-STW-Active Signal Management & Operations

CENTRAL OFFICE – Office of TSMO

Scope of Services

The consultant may be required to perform miscellaneous tasks associated with assisting ODOT in implementing Integrated Corridor Management (ICM) principles to begin actively managing freeway and arterial/signalized corridors utilizing ODOT's existing ATMS and Centraacs software.

The basic services will include:

- **TSMO/Operations Study**
- **Basic Traffic Signal**
- **Traffic Signal System Design**
- **ITS Design and Operations**
- **Data analysis (i.e. INRIX, RITIS, traffic incident management)**
- **Benefit cost analysis**

All work shall be performed on an actual cost basis. The consultant shall maintain a project cost accounting system that will segregate costs for individual task orders.

The electronic price proposal shall consist of a transmittal letter from the consultant that they have a clear understanding of the scope of services. The proposal shall also include the names and hourly rates of the personnel doing the work on the Hourly Rate Calculation sheet, Indirect Cost Rate Sheet showing the Firm's overhead rate and cost of money rate, analytical rates and testing rates (if applicable).

If subconsultants are used, the amount to be expended annually with each subconsultant shall be shown in a tabular format. A proposal by cover letter from the subconsultant to the prime consultant showing hourly rates of the personnel doing the work on the Hourly Rate Calculation sheet, Indirect Cost Rate Sheet showing the Firm's overhead rate and cost of money rate, analytical rates and testing rates (if applicable).

Price Proposal Due Date: Not applicable
