John,

You may already be aware but I wanted to make sure.

I inspected parcel 1 Eichorn this week. He leases a portion of this site to an electric company and they have quite a bit stored on site within the proposed acquisition and temporary area. This would include probably 40 utility poles along with a large dumpster (Rumpke or electric company) and large storage container, the type you would see on a train. The owner could not remember the name of the electric company leasing the space. I asked him to please find that information for the next person that may need it.

Wasn't sure if you had someone for relocation that may want to reach out. Just wanted to let you know if you didn't already. I have attached some pics of the personal property along with the RE-95.

Thanks

David M. Weber
