

**APPROPRIATION ATTACHMENT
TO THE NEGOTIATOR'S NOTES**

Project: 110412
Parcel: 001-SH1, SH2, T
Owner: Eichhorn Limited Partnership

State the reason the parcel is being recommended for appropriation:

Counter offer received is unsupported nor reasonable.

Per 04/06/21 email from Atty Kenter, the money requested is \$167,500 without support. Atty Kenter asked if ODOT would pay Eichhorn Limited Partnership's cost of an appraisal. He stated in order to support their offer, ODOT would need to pay for an appraisal because there is no mechanism for recovery of the expenditure. Atty Kenter challenging FMVE based on change to HBU, Damages, and Structure Value. Without supporting appraisal for amount of counter offer, there is no avenue to move forward with negotiations.

My last attempt on 6/8/2021 was received and rejected. Atty Kenter stated once the case was filed, they would then contract an appraisal and provide us the calculations bringing their counter offer to \$167,500.00.

Project: 110412
Parcel: 001-SH1, SH2, T
Owner: Eichhorn Limited Partnership

Summarize any information which you feel would be of advantage in reaching a settlement:

Documentation from Eichhorn Limited Partnership supporting the counter offer of \$167,500.00, change of highest and best use, identification of damages. Coupled with the State's appraisal and current market in this area, there are no available comparable properties to support the amount of compensation requested in the counter offer.

The property owner purchased the land after the former owners combined all the parcels into one large parcel. At the time of the sale to Eichhorn Limited Partnership, the front 2.0 acres zoning B3 (Intensive and Motorist Services Business Commercial) but was requested to be rezoned to Agricultural. Eichhorn Limited Partnership requested the entire property be entered into the CAUV program, and currently has a 10 yr lease from a farming entity. Clearly the Highest and Best Use is Agricultural. Current zoning in Walnut Township reflects Agricultural and in talks with a Township Trustee no future changes are anticipated with current residents.

Mr. Eichhorn stated Kroger was interested, however, the PCL 002 owner stated Kroger was not interested in either PCL 001 or PCL 002 properties due to the amount of flooding (pooling) and serious drainage issues. Costs to mitigate this situation are prohibitive per PCL 002 owner. Utilities are another hurdle.

At the corner, where the dilapidated structure stands, The Village of Thurston removed all utilities from the property as did South Central Power due to the dilapidated state of the building back in 2016. Per a Village discussion, Mr. Eichhorn was told by his insurance company to remove the roof, windows and doors due to liability from transients who had been using the structure for illicit activities. The Village gave him a figure to re-hook up the water and to join the sewer system in an amount Mr. Eichhorn was not willing to pay.

Through research in D5 permit records, the property where the dilapidated structure is erected at the SE corner of SR 37 and SR 256 intersection has no legal access for egress and ingress. Highest and best use without access would be agricultural at best. To be a good neighbor, D5 designed a field drive onto this part of the property off SR 37.

Access to this entire 113.854 acre parcel is at the address of the property 7640 Lancaster-Newark Road NE, Lancaster, OH.
